App Testing Report

Service provider: Touseef Ijaz

Provider Fiver Account: https://www.fiverr.com/touseefijaz665

What we have done:

- *We conducted a 14-day closed test with 25 testers to thoroughly evaluate the app's functionality and performance.*
- *During this period, we collected feedback on usability, stability, and user experience, making necessary adjustments to ensure the app met high standards before its public release.*

After testing the app for several days testers have some suggestions/bugs/errors for you that need to be resolved in your feature updates.

Testers Feedback

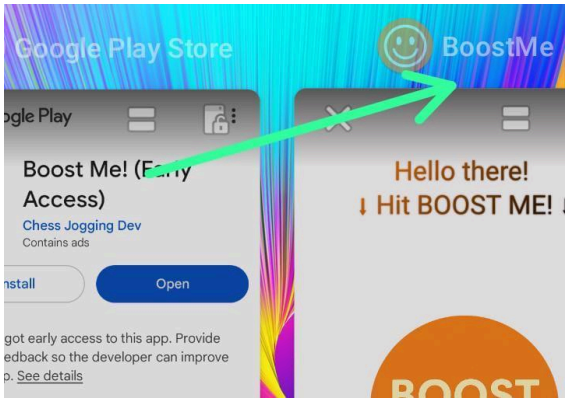

**** Name mistake***

-> The app name on the Play Store is: Boost Me!

-> The app name on the project is: BoostMe

Correct these names and make it "Boost Me!" OR “BoostMe” for all places (on Play Store, on the project side, and inside the project).

TOUSEEF IJAZ

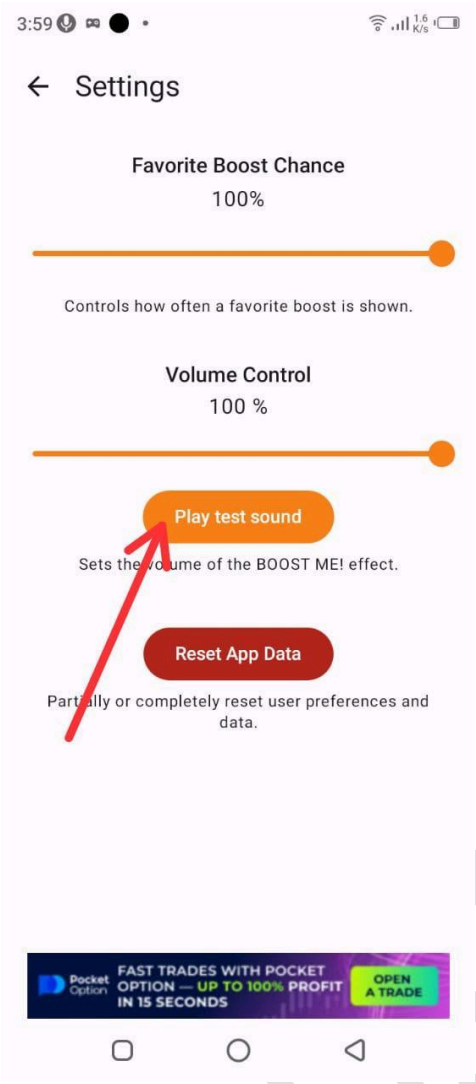

Settings Activity:

The sound on the play test sound button is too slow. We will recommend to increase the sound on this button.

Please add a privacy policy in the settings activity of the application.

TOUSEEF IJAZ

TOUSEEF IJAZ

General:

During all these days of testing, we didn't find any crashes in the app. But the app has limited functionalities, it doesn't provide enough value to the users.

Also, you need to add a new activity where you will be displaying the list of boost.

TEST CASE SHEET:

#	Feature / Area	Test Scenario	Expected Result	Status
1	Installation	Install app from Play Store / APK	App installs successfully without errors	✅ Pass
2	Logo Consistency	Verify logo on Play Store and in-app	Logo is the same across both platforms	✅ Pass
3	App Name Consistency	Check app name across project and Play Store	App has same name everywhere	Fail
4	Navigation	Move between screens (home, search, detail, apply, settings)	Transitions are smooth and fast	✅ Pass
5	Button Interaction	Tap on different buttons	Buttons respond correctly with no delay	✅ Pass
6	Crash Handling	Use app for an extended session	No crashes observed during testing	✅ Pass
7	UI Overlap	Verify all screens for overlapping elements	All UI elements are correctly aligned	✅ Pass
8	Play Store Content	Review description and screenshots	Descriptions and screenshots are clear and relevant	✅ Pass
9	Privacy Policy	Open privacy policy from the app	Policy loads properly within the app	✅ Pass
10	Performance on Low-End Device	Performance on Low-End Device	Performance on Low-End Device	✅ Pass
11	*UI Check*	*Navigate through different screens*	*UI is consistent, clean, and matches design guidelines*	✅ Pass
12	*Registration - EditText*	*Tap on input fields and enter valid/invalid data*	*Fields accept input, show proper hints and validation messages*	**None**
13	*Registration - Eye Icon*	*Tap on eye icon while entering password*	*Password toggles between visible and hidden*	**None**
14	*Registration - Button Interaction*	*Enter valid data and tap the button*	*App proceeds to next screen or shows confirmation*	**None**
15	*Fragment Alignment*	*Navigate between fragments and observe layout*	*Elements are properly aligned and spaced*	✅ Pass
16	*Visibility of Items on Background*	*Observe contrast and clarity of items*	*All items are readable and clearly visible*	✅ Pass

TEMPLATE OF APPLY FOR PRODUCTION

These are the questions that play console will ask you when you click on Apply to Production button. Make sure to answer them correctly.

About your closed test

How did you recruit users for your closed test? For example, did you ask your friends and family or use a paid testing provider?

Answer:

Testers were recruited through freelancers' social media groups, friends and family, and skilled, paid app testers.

How easy was it to recruit tester for your app?

1. **Very difficult** ✅✅✅✅
2. **Difficult**
3. **Neither difficult nor easy**
4. **Easy**
5. **Very easy**

Describe the engagement you received from testers during your closed test.

Answer:

Testers loved the immediacy—just one tap to feel better—with no account creation or distractions. Testers Daily visited the app to boost themselves.

Provide assembly of feedback that you received from testers include how you collected the feedback.

Answer:

Feedback is collected via surveys and direct messages. Testers appreciated the ease of use and smooth navigation.

About your app

TOUSEEF IJAZ

Who is the intended audience of your app?

Answer:

The app is perfect for anyone needing fast emotional support—students, remote workers, parents, creatives, or anyone prone to burnout or anxiety.

Describe how your App provides value to users.

Answer:

The app delivers joy and calm in seconds with zero friction. No sign-ups, no ads, no data collection—just pure, private mood support.

How many installs do you expect your app to have in the first year?

1. **0 – 10k**
2. **10 – 100k** ✅✅✅
3. **100 – 1M**
4. **1M+**
5. **I don't know**

Your production readiness

What changes did you make to your App based on what you learn during your close test?

Answer:

No major changes were made due to testers' positive feedback, but the app's UI was refined for smoother navigation and a more intuitive user experience.

How did you decide that your app is ready for production?

Answer:

Yes. The app performs stably across tested Android devices, the UI is intuitive, all features work reliably, and all major functionalities passed user acceptance testing. The app is ready for release.

Thank you *for your collaboration, trust, and the opportunity to work on this exciting project. I look forward to your feedback and to continuing our productive partnership.*
