**Animation is an involved process, at minimum you will receive clean lines, flat colours, and a BG.
For more info read the section below.**

~Animation Section~

For a single loop of something happening the average price is £300, the scene will have clean lineart, flat colors and a drawn BG. Transitions, extra loops, or complexities like a cum finish to a nsfw loop will add to the price. A climax as an example can be twice the difficulty of a loop, and as such the price of just the climax will start at €600. This all depends on the details of the scene. For something simple, just a single loop, it can be around €300-500.

Animation examples can be found here,

~Background Fees~

Price depends on complexity.

Abstract Backgrounds such as a flat color or some random shapes etc are free.

A simple Background is around 10% to 20% of the final price.

A detailed and complex Background is around 30% to 40% of the final price.

~Extra options~

You can also just pay us to upgrade a random sketch or doodle we have done in the past to a higher tier, or fund a random picture from us as a purely 'artists choice' sort of commission.

When we open just state such in the forms. If you want an upgrade, also include the picture as a reference.

Please note, prices are PER CHARACTER.

We are now using Arty.

We will send you a sketchy WIP of the idea to confirm it.

You will need to then send the money via Arty using a confirmation system. It's easy and Violet can help. It's mostly just sending the money and then accepting the work via a Token we send back. WIPs will be done in DMs anyway.
