

Subject: Protect LGBTQ+ Youth in California

Dear [Governor Newsom / Assemblymember LAST NAME / Senator LAST NAME],

[IF ACCURATE] I am a constituent. I am writing to ask you to prioritize LGBTQ civil rights and specifically to protect and support trans youth in California.

As a first step, I ask you to support SBX1-1 in the special session. Trans youth are under threat now, we cannot wait for the July budget to provide much-needed community legal resources, and data protection

I also urge you to prioritize:

- Funding gender affirming care should federal funds be in jeopardy, and maintaining access to life saving medications like puberty blockers and hormones
- Preserving regulations for name and gender marker changes on state and federal documents
- Defending schools who support trans youth and teach LGBTQ history and providing supplementary funding to these school districts if necessary

[OPTIONAL: more about why this is important to you].

Sincerely,
