Theresa uses a LAVALIER microphone and a HANDHELD microphone for audience interaction.

Theresa will send her PowerPoint presentation for your team to load in advance if needed or will bring her own Mac laptop with adapter or USB drive.

Please ensure the stage is open and free for movement with no podium, decor, or seating blocking the front of the stage.

Let Theresa know your room setup at least a week in advance as she is highly interactive with the audience.

For board retreats, workshops, or other more intimate events, a flip chart with sticky paper, easel, and a fresh set of Mr. Sketch markers are preferred.
