

[Remembering we are the Heaven we seek...11.3.22](#)

We come remember we are the heaven we seek. We have this deep, deep connection with Self not just because we know *about* it, but we *are* it. There is full remembering and outliving of only Love. That where the small self once stood with its filters, beliefs and some tiny little glimpses of the Christ, now stands the full Radiance of the glory of our Being.

Together as a group we give willingness as much as our hearts will allow, as much as our minds will allow. Thank You for allowing us to exchange our fear of Your grace and love and peace. Thank you for the stirring of the son out of his deep sleep. Thank you for every single thought that the Awakening ones drop into the clear, still pool of remembering. Thank you for LIFE. Amen.
