

iPad - Install iPad Apps with Self Service

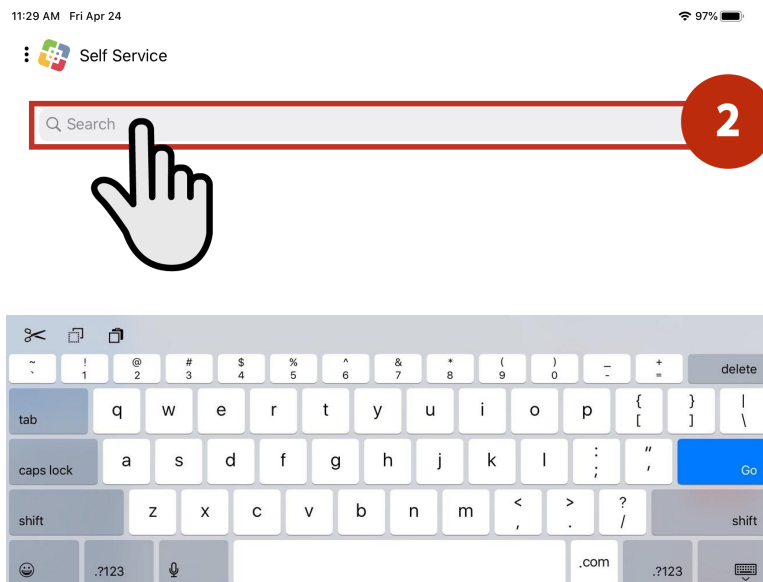

Self Service allows you to install software on your iPad.

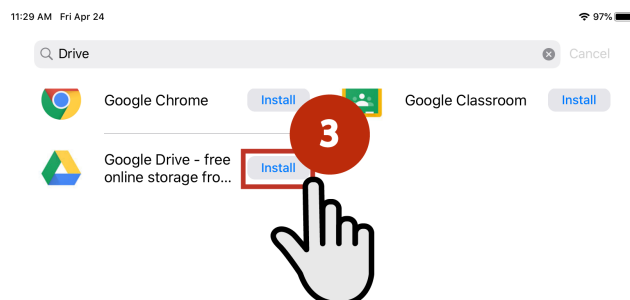

1. Tap on the **Self Service** app in the iPad's dock at the bottom center of the screen.

2. Tap the search bar. Use the keyboard that comes up on the screen to type the name of the app.

3. From the results that appear, look for the app that you want to install and tap the **"Install"** button.

4. It will appear on the iPad after you install it. Swipe to see if the app appears on another page on the iPad or inside one of the folders.
