

Name: _____ Period: _____ Date: _____

Environmental Science
#1-1: What's Important to You?

Please answer each of the following questions with at least two complete sentences and give a supporting example.

1. Who is the most important person to you in your life? Why are they important?

2. What is the most important thing to you in your life? Why is it important?

3. Where is the most important place in your life located? Why is it important?

4. What is the most important event that has ever happened to you in your life? Why is it important?
(If your event was traumatic, please do not share details if that makes you uncomfortable.)

5. If you were to ask other students in the school about what they think is important, how do you think they would respond? Why do you think so?

6. Why is the 1969 fire on the Cuyahoga River considered to be so important?

7. Why do you think I'm asking you about important people, places and things in your life in Environmental Science class? What's the connection?
