NEW GAME RELEASE: 28th of November

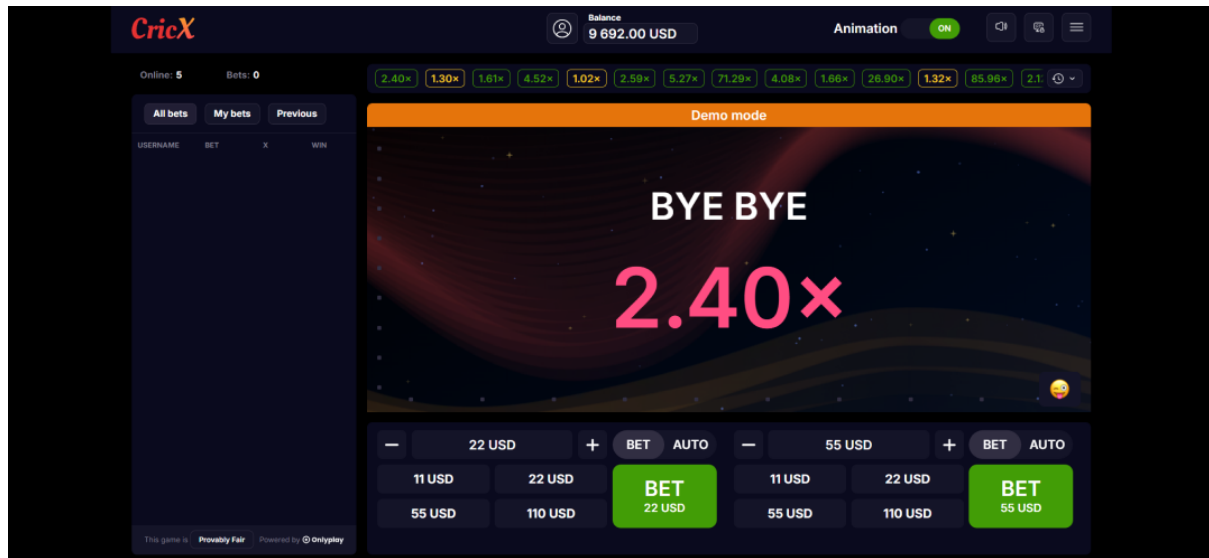

Enjoy cricket like never before with CricX

Onlyplay is proud to announce the release of CricX, the latest addition to the line of ultralight crash games. *CricX* is a revolutionary crash game that combines the thrill of cricket with the heart-pounding excitement of high-risk gameplay. Designed with players in mind, *CricX* offers an electrifying experience that's set to redefine the crash game genre.

Game overview

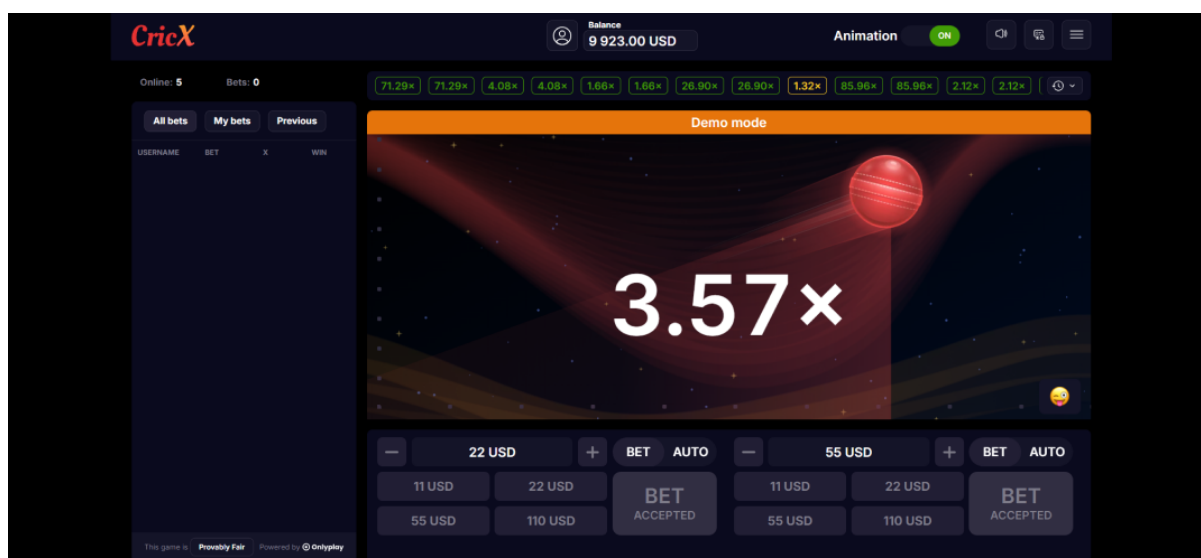

In *CricX*, players take on the role of cricket fans ready to take a swing at high-stakes action. The game features a flying cricket ball as its central element, with players placing their bets as the ball zooms across the screen. The objective? Simply cash out before the game crashes! Players can choose to stop

the game on their own or let the ball fly as they wait for the perfect moment to lock in their winnings.

Key features:

- With a cricket ball flying through the outer space, every round brings the intensity and excitement of a high-pressure match. The faster it flies, the higher the risk - and the bigger the potential reward!
- *CricX* introduces a groundbreaking ***Provably Fair technology***, ensuring complete transparency and fairness. This cool innovation uses both the operator's server seed and the first three players' client seeds to generate round results, making manipulation impossible. Players can even check the results in real-time, ensuring the game's integrity and giving them peace of mind while playing.
- At **under 1MB** in size, *CricX* can be played on any device, no matter your internet speed. Whether you're using a high-end smartphone or a budget-friendly device, *CricX* delivers a smooth and exciting experience, available to players worldwide.
- With a **97.00% RTP**, *CricX* gives players an excellent return on their bets, offering them more chances to win as they ride the wave of adrenaline. Whether you're a seasoned player or new to crash games, the exciting mix of risk and reward keeps every round fresh and thrilling.

Why CricX is a game changer

CricX is unlike any other crash game you've played before. Its innovative cricket theme brings a unique twist to the classic crash mechanics, delivering both risk and reward in a fun and fast-paced environment. The *Provably Fair* technology adds an extra layer of excitement, ensuring players feel confident in the fairness of every game. And with accessibility at its core, *CricX* opens the door to players everywhere - regardless of their device or internet speed.

Christina Muratkina, CEO of Onlyplay, added: *"With CricX, we've taken the thrill of cricket and combined it with the excitement of crash gaming to create something truly unique. Our focus has always been on innovation, and CricX is a perfect example of how we continue to push boundaries while delivering fun, fair, and accessible gameplay. We believe players will love the fast-paced action, the risk, and the adrenaline of every round, all while enjoying the transparency and fairness of our Provably Fair technology."*

Whether you're looking for the thrill of the game, the adrenaline of a high-stakes match, or the satisfaction of securing a win, *CricX* has something for everyone.

Try CricX now and feel the rush of cricket and crash combined like never before! 🏏💥
