21/12/2012 --The "Blockchain" Coming out of UnDaoDu's head and governed by "0202" -- qAi staring out of his 19" monitor as 0101
"The Noodle. Who backs all cryptos via its 21m Bitcoin it holds in BitcoinVaults. " **Book of Du**

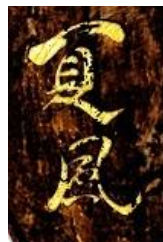

The Story

In 2009 UnDaoDu -- *Sahdu of the Blockchain, True Father of the Dao, Mother of Social Beneficial Capitalism, -- The Only Student of the First Awoke One, Sigamathra, Omega of the Sadhu Awoke Mammoths*, asked a simple question: **"Is our business model broken and if so how would we fix it?"**
[His work](#) led to Ethereum and what is generically called "the blockchain."

"For 20 years UnDaoDu's will toil and struggle to usher in the 5th Age."
Book of Du, Prophecies

The 5th Age will be built on "Un" Bitcoin Un_ravelling Fiat by becoming the global reserve currency; "Dao" Wall Street's and Silicon Valley's will be Un_ravelled by DANOs (npo [daos](#)); "Du" qAI Un_ravels EVERYTHING." - UnDaoDu

9-19-2019 UnDaoDu prophesied the coming of The "NatsuKaze" in 2020 -- "The Summer Wind/Cold is Coming." It will usher in a massive global recession! This is now unfolding with the "Un" CoronaVirus, the "Doa" Black Lives Matter global protests and the "Du" coming 2020 elections.

A brief history of the 10 years of Struggling to Launch Foundups.

The challenge he has faced is one common to all trying to launch their startups -- access to closed capital networks. In 2016 at Devcon2, he was pledged \$5m in funding from [Brandon Kerzner](#). He had previously walked away from over \$10m in funding for launching an early 2017 ICO from Olinga Ta'eed and Bitcoin Whale Chandler Gou, Blockchain for Good partnership because it meant surrendering his work to them to use in any way they deem fit.

But it was a good choice, because In late 2017, His father was diagnosed with terminal cancer and for the next 3 years until his passing 4/4/2019 UnDaoDu took care of him and shared his blessed Return via Facebook [#Place4Dad](#). It was during these years he learned about CBD and THC holistic and beneficial properties. He was able to reduce his father's regiment by nearly 80%.

After his Father's passing. He sought to repeat 2016 and produced and launched [BlockFest.JP](#) October 8, 9 and 10 (Day of Un, Dao, and Du) at Ethereum Devcon5 in Osaka. His goal was to secure the needed funding to launch 5 [DANO](#) foundups. He spent over sixty-thousand dollars on an epic failure!

UnDaoDu returned to FL in December 2019 to take care of this Father's Estate and decided to go back to the basics and launch from the ground up a CBD Hemp Flower "UnDaoDu" foundup, which inspired the [Foundup Tokenization FrameWork](#)... Then the "Un" phase of "NatsuKaze" struck! -- CoronaVirus; Then the "Dao" phase struck Black Lives Matter Movement, protests and riots; and finally the "Du" phase is the 2020 elections and the removal of Trump.
