

ANADP2 Action Assembly Outcomes:

Systems/Infrastructure

Curriculum & Training -

Need for Realistic Training Resources

Scenarios

Tools- COPTR

classification scheme to communicate level of courses - 1st draft

investment in skills is an upfront cost - makes digital preservation less expensive in the long term

RIDLS (<http://www.researchinfonet.org/infolit/ridls/>)

Action: -

- will move forward to take classification;
- outreach to broader communities;
- make materials more “findable”

How can we sustain and coordinate National Alignment activities?

DO we need an international organization to coordinate?

Genealogy of Digital Preservation community/field

Track Failures: Digital Damages <http://www.atlasofdigitaldamages.info/v1/>

Identify Gaps

Need to “speak with one voice”

Opportunities Panel:

Oya Reiger, Jeremy York, Carlos, Morias Pires

What should be the ways to expand the discussions beyond ANADP?

- BOF discussions
- booths at conferences
- ANADP theme panels
