

Date & Time: 11/1/2022 6:30-8:30 pm

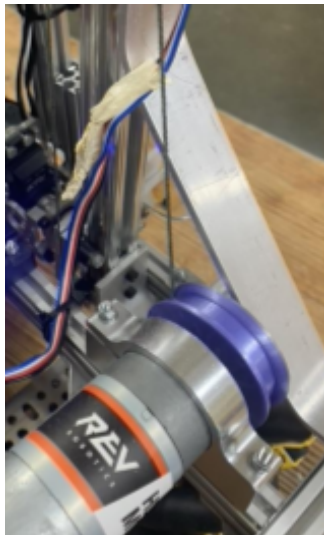

Location: Millard's Workshop

Coaches present: Millard Gold

Members in Attendance: Isabel and Lauren

Task:	Reflections:
Make a class for bucket lift	Isabel was not excited to work on OnShape to do CAD but she found it easier than she expected.
Add on to autonomous	It was a small amount but should work well with what we Isabel and Lauren) plan to do in autonomous mode in the future.
Fix sting on claw and bucket lift	Isabel worked on this with Millard and he had a very good idea about how to position the motor so that we would not have to do this again.
Update the website	Lauren did this. It was tedious but having the correct information on the website is necessary.
