

Michoacan Republic Independence Declaration

This document explains and declares the formation of The Michoacan Republic and its view on the circumstances leading to its creation. Michoacan Republic is independent of any other nation including Texas and Mexico

Founding States And Towns:

>Michoacan

-Christi (Capital)

-El-Dorado

Statement on Texas:

The creation of this nation is a direct result of the incompetent ruling of Texas by North Paso and The Rocky Administration. This has resulted in the Nation of Texas being weak and the government of Texas being divided. When these issues were taken to the rocky administration they purposefully isolated and shut down anybody who disagreed with their pathetic handling of the nation. Not only has Texas become weak. Years ago Texas was a major North American Power. From my, and others, experience of the Texas government, It's nothing more than a weak authoritarian rump state. Even for a Monarchy, its inefficient. North Paso is almost the sole reason Texas has been weakened. We do not wish for war with Texas, but are prepared to defend our right to exist as an independent nation.

Statement on Baja (Mexico):

On 6/9/24 Baja stated that the towns of Christi and El Dorado were Outside the Texas Border and wished to annex them. Although the Texas government disagreed, North Paso and the Rocky Administration decided to give in to Baja's demands despite Baja being weak. Texas tasked these towns with "allying with any natural towns in baja and when the time is right bring them back to texas". These towns are now forming michoacan. We WILL be independent from both Texas and Baja. Although, this was the act that reunited a Michoacan Republic movement by showing just how incompetent and weak the Texas Government's Rocky Administration is.

Statement on Texas Republic (Dallas-based rebels)

We neither ally, nor wish to be hostile to the Rebels. That being said, just as Baja did, The Rebels have done an amazing job at again, showing the Michoacan Republic that Texas is no longer viable or worth staying in. They also make a good case, aligning with our previous statement, about North Paso needing to be exiled from the Texas government in order for the betterment of texas. It is unfortunate to see that the wanted resolution may never happen.

Conclusion:

While Texas rots under Paso's government, the Michoacan Republic will be Flourishing. We are not a rebellion, we don't look for war, at the same time we will not be weak like Texas recently has. All Threats to our independence will be taken seriously. We have open arms for any Texas town. Without paso stepping down, Texas is a dying dictatorship sponsored by its own monarch.
