Thank you for using Study Buddy! We are committed to protecting your privacy and ensuring you understand how your data is used.

1. Data Collection and Use

Study Buddy does not collect any personal information beyond what you voluntarily provide to generate your study materials. We only process the content you input, such as your notes, in order to create flashcards and summaries for your personal use. We do not store or retain your data after the session is complete.

2. Third-Party Services

We use a third-party AI service to help enhance your flashcards and summaries. This involves sending the content you provide to the AI via an API key. We want to assure you that this API key is used strictly for processing your study material and is not used to collect any personal identifiers unless you include them in your input. We do not share your data with any other third parties.

3. Data Security

We take reasonable measures to ensure that your data is protected during the brief period it is being processed. Once your flashcards or summaries are created, we do not retain any copies of your data.

4. Your Control

As a user, you have full control over what information you provide. You can choose to delete or modify your input at any time before the processing is complete.

5. Changes to This Policy

We may update this privacy policy from time to time. We will notify you of any significant changes by posting the new policy within the app.

Common Questions

Q: What is Study Buddy?

A: Study Buddy is an AI-powered study assistant that helps you turn your notes into flashcards and summaries. It also allows you to ask questions based on your own study material — making revision smarter and faster.

Q: Does Study Buddy store my data?

A: No. Study Buddy only processes the content you input to generate study materials. We do not store, track, or share your personal data.

Q: Who can use Study Buddy?

A: Study Buddy is ideal for high school, college, and university students — or anyone who needs to revise and learn efficiently.

Q: How does the AI work?

A: The app uses a trusted third-party AI service to analyze and transform your study notes. This is done securely and only for the purpose of creating flashcards, summaries, or answering your questions.

Q: Do I need an internet connection?

A: Yes, an internet connection is required to access the AI features, including flashcard generation and summaries.
