

SystemLEVELS - AutoTrend System 2024

Buy On Blue. Sell On Red. Profit From Day One

Add the AutoTrend System on your chart and it will **analyze the price action** for you instantly.

When it detects a change in trend it will **alert you** with a sound so you can act quickly.

This Is How It Works Buy On Blue. Sell On Red.

The Simplest Way To Trade

Just look at the charts below. The one on the left is a standard chart of Apple (\$AAPL) and on the right is the same chart but with AutoTrend System added. **See the difference?**

On a standard chart there's no way to tell when to enter a trade and when to exit for maximum profit.

AutoTrend System gives you **clear signals** so you are **never in doubt** while capturing the largest chunk of every move.

Maximize Your Returns. Every time.

Never leave anything on the table again.

Do you often enter a trade, it goes in your favor and you take profits only to see it go much farther without you? AutoTrend System keeps you in the trade until the full trend is over, helping you maximize your returns every time. No more leaving anything on the table.

A Simple Trading Strategy. Completely Built-in.

Buy here, sell here. Profit and done!

AutoTrend System is not just an indicator. It is a **full trading strategy**, complete with **entries**, **exits** and **trade management** fully built-in for you. You will never have to guess what to do next or depend on anyone or anything else to make money trading.

Keeps Losses Small. Lets Winners Run.

Have more, bigger green days and fewer, smaller red ones.

Ask any professional trader and the first thing they will tell you is to cut losing trades fast while letting your winners run. The AutoTrend System does exactly that for you.

1Min, 15Min, 1Hour, 1Day? Works On Any Time Frame.

Do you like the action of day trading or maybe the calm of swing trading? How about long term investing?

No matter your time frame, AutoTrend System works on all of them.

Here's What The AutoTrend System Includes

Everything you need to start making smart trades right away.

The Original AutoTrend System

The simplest, most profitable way to spot and trade trends on any trading instrument. The AutoTrend System indicator gives you clear **entry and exit signals** and keeps you in a trend until the end, capturing the largest part of the move.

The New Dynamic Profit LEVELS

Capture more profits by exiting your trades as the price hits a high-probability reversal level. This indicator **automatically** adds these right on your chart every day so you know **in advance** where price is likely to reverse even **before** AutoTrend System gives you an exit signal.

The New ATS Trend Validator

The **most powerful addition** to the AutoTrend System yet.

Allows you to completely **skip a lot of false signals** by displaying the trend of the higher timeframe right on your chart. If the **colors match** then take the trade.

If not, just ignore the signal!

Multi-timeframe analysis done in 2 seconds!

3-Hour Pro Strategy Training Video Course

All the best tools in the world are useless if you don't know how to use them right. The 3-hour course is taught by a pro trader with over 10 years of experience. You will learn how to use AutoTrend System the right way, how to **avoid losing trades** and stack the **odds of success** dramatically in your favor. He takes you **step-by-step** through the process so you can start using it from **day one** even if you've never traded before.

4 High-Probability Trading Strategies

Get 4 different strategies that you can use with the AutoTrend System tools. They include clear, **pre-defined rules** that you can follow when trading with the ATS & DPL. These strategies are **tried and tested** and are the ones we use ourselves every day to profit from the markets
