TOURNAMENT DETAILS

This is a Warhammer 40k singles event using the matched play rules found in the Warhammer 40,000 rulebook and supplemented with all Games Workshop published FAQs and Chapter Approved publications.

++ This event consists of FIVE 3-hour game rounds. Three games will take place on Saturday, with the remaining two being played on Sunday. Pairings will be made ten minutes before rounds begin but are subject to change or delay due to drops or improper scoring input. Please use this time to find your table, introduce yourself to your opponent, start pre-game discussions and set objectives on the field. Do not begin any unit deployment or dice rolling until the timer has begun for the round.

++ Armies will consist of no more than 2000 points, a maximum of 3 detachments and will use all the appropriate rules for a Matched Play Strike Force sized game compliant with the current Matched Play Rules, Balance Dataslate, and Munitorum Field Manual. No Fortifications unit types will be allowed during this event.

++ This event will require Battle Ready painted armies; **any models that do not meet this standard can and will be removed at a judges discretion and offending models as part of a unit will result in the FULL UNIT being removed.** Please reference the following photo, use the middle model's "tabletop standard" as a benchmark to what judges will be looking for. An effort must be shown to be put into the model's basing and can be a determining factor in whether or not your army is considered fully Battle Ready.

via Hellstorm Gaming

++ Please email 40KMilwaukeeGT@gmail.com to get any conversions and/or substitute models approved before army list submission on February 18th. Conversions, third-party and 3D printed miniatures are allowed but must be an obvious interpretation, and as close to WISYWYG as possible, of the unit being represented. In the email, provide photos of the model you want to use and the official model that it will be representing.

++ GW Open styled preplaced terrain and rules will be in effect. Email 40kMilwaukeeGT@gmail.com if you have any questions.

++ Chess clocks are not required, but may be provided for players that wish to use them. Please note that only one player needs to request/consent for a timer to be used on their table. Clocks must be used at the start of a game and must be used through its entirety.

++We will allow Games Workshop publications (codices, Warzone supplements, etc) released up to two weeks before the event (Sunday, February 18th, 2023). Any content published after this date will be reviewed by TOs and determined whether or not to be used for the relevant event(s). These may include FAQs, Balance Dataslates or any other content provided by Warhammer Community or other relevant sources.

++ This event will provide scores to ITC standings for personal and team results and reports totals within a week after the event.

++ The use of Best Coast Pairings (BCP app) will be required to track scores during the event and to match players each round. Players will be expected to have their lists submitted into BCP the Sunday before the event (6 days) by 11:59 pm. Failure to load a valid list by the deadline will result in a 10 pt deduction per day penalty. Scores will be submitted for ITC power rankings through BCP.
