- 8: very good
- 7: good
- 6: decent
- 5: mediocre
- 4: bad
- 3: very bad
- 2: awful
- 1: abysmal

Ratings mostly reflect how much I enjoyed each fic with some consideration given to how much I was impressed by it (which is not always the same thing.) All ratings are as of the time I finished or dropped the fic, which may result in an anti-recency bias. The "Word Count" column is based on the size of the file in my Calibre library and may include omakes, apocrypha, informational posts, etc.
