

We appreciate your help with spreading the word about the upcoming “LF Energy Summit”. The following materials will help you tell your networks about the event and how to register. Feel free to rephrase any of this content to match your voice or highlight your involvement. Note there are customizable posts, where you simply need to replace the **highlighted portion** with your session details. If you need any additional content or materials in another format, let Dan know at dbrown@linuxfoundation.org.

LF Energy Summit comes to Brussels 5-6 September. View the agenda of topics including sessions on grid operations, simulation, modeling, digital forecasting and more. Discount pricing ends 25 Aug! <https://events.linuxfoundation.org/lfenergysummit/> #lfenergy #lfenergysummit

I will be speaking at LF Energy Summit on **[INSERT TITLE]: [INSERT URL FROM <https://lfenergysummit2024.sched.com/>]** #lfenergy #lfenergysummit

LinkedIn/Facebook

LF Energy Summit is a two-day event taking place 5-6 September in Brussels. The event explores how LF Energy accelerates the energy transition by building communities to develop open technologies and standards. The only way to meet decarbonization targets for energy systems is to work collaboratively to develop digital technologies and standards to optimize physical infrastructure, orchestrate supply and demand, and rapidly onboard clean energy resources. LF Energy Summit will gather the LF Energy community including electric utilities, technology vendors, global energy companies, researchers, and other industry stakeholders to learn about LF Energy and its projects, collaborate, and share best practices. Learn more at <https://events.linuxfoundation.org/lfenergysummit/>.

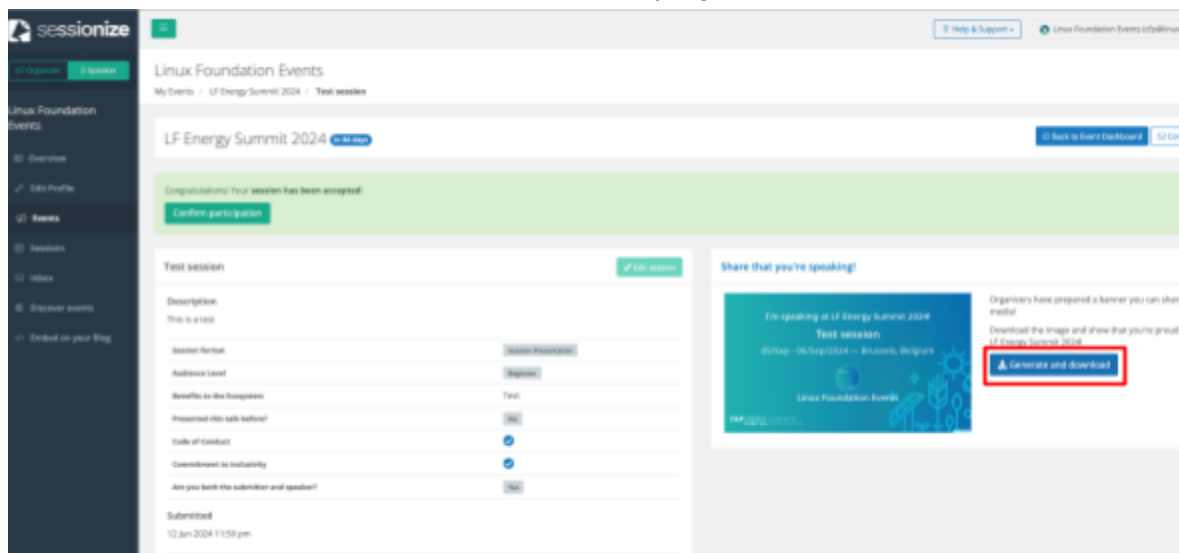

Graphics

We have prepared a banner you can share on social media. Please follow the steps below to download your banner:

- 1.) Log into Sessionize using this link: <https://sessionize.com/login> (This is the system you used to submit your talk information as part of the event's Call for Proposals.)
- 2.) Once you're logged in, you will arrive at your speaker overview page. Find your session title from the list, and click on it.

- 3.) On the next page, a preview of your banner will be shown on the right side of the screen under "Share that you're speaking!". Click on the blue box that says "Generate and download", and the file will download as a .jpeg file.

If you prefer, you can use a generic graphic [here](#). This can be used alongside any social media posts, blog posts, emails, etc. about the event agenda and registration.
