

YORKSEED

venture | community | accelerator

Participation in this Beta Tester / Surveys / User signup is exclusive to **Yorkseed members**. To join, you must be a member of one of our city hub WhatsApp groups and subscribe to our newsletter. Founders, simply asking people to download your app is not enough if you need feedback. **Please create a Google Form or another type of form to collect email addresses for beta tester/feedback sign-ups. This way, you can follow up with beta testers or schedule meetings.** (Yorkseed will not have access to your form; you will manage it yourself.)

(Jason, please remove the following information from all the signups individually once you find the person in the WhatsApp group and newsletter subscriber list.)

Phone number (Number you use in whatsapp, and specify which hubs are you currently in it):

Email (Email you used to signup for <https://yorkseed.beehiiv.com/subscribe>):

Sector: Mental Health, Social Media, Ed Tech

Company Name: Happiroom <https://happiroom.com/>

Sector: Cybersecurity, Document Security

Company Name: [identi.ly](#)

Founder Name: Kelvin Koh

Contact Info: hello@identi.ly

Two Lines Pitch:

identi.ly is a SaaS platform which helps SMBs and individuals encrypt sensitive documents through proprietary biometric encryption, instead of relying on passwords and credentials, with easy sharing to the right recipients!

Product Url: <https://identi.ly/beta-launch/>

Platform: Website

Sign up to be a beta tester to provide feedback: Please follow the above Product URL for instructions.

Need help with Survey: N/A

Sector: ConstructionTech

Company Name: Ulama

Founder Name: Tyce Herrman

Contact Info: tyce@ulama.tech

Two Lines Pitch: *For architects only - requires Revit* *Ulama is on a mission to get stuff built fast by automating code compliance analysis of construction designs, slashing the time from permit application submission to shovels in the ground. The go-to-market solution is a software plugin that lives inside architects' existing 3D design software.*

Product Url: N/A: not publicly available

Platform: Windows, Revit (delivered as Revit plugin)

Sign up to be a beta tester to provide feedback: Please join the waitlist:
