

BNY 303 Access Instructions

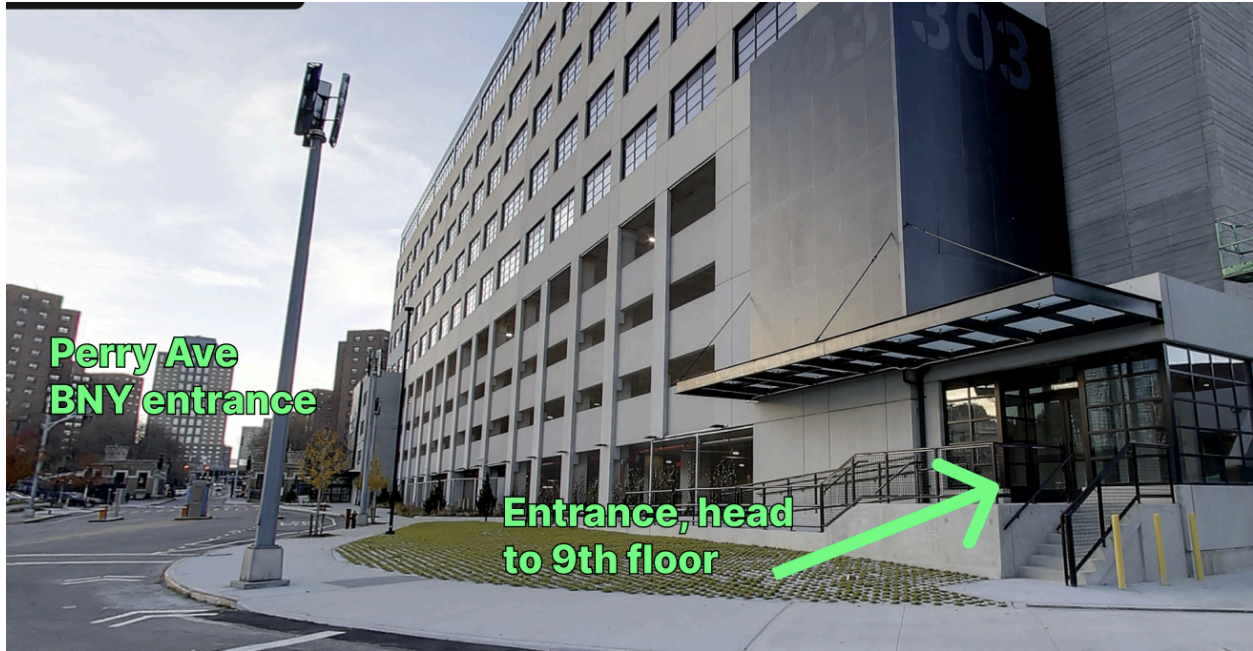

Building 303, Brooklyn Yard Access

The main venue for Deep Tech Week events is Building 303 in the Brooklyn Navy Yard.

This building is a bit hard to get to show up directly in google maps, so here is a [link to a Pin with the correct location](#). The closest address that's easily searchable for an Uber/ Lyft drop-off is **298 Sands St, Brooklyn, NY 11201**

The easiest way to get there from outside the Navy Yard is entering along Perry Avenue Entrance, the address is 298 Sands St, Brooklyn. A security guard at the gate may ask you for some ID or badge, just show them your event ticket on the Luma App and say it's for Deep Tech Week and they'll let you pass.

The entrance to the building and venue is just immediately after the security gate on your left, head to the 9th floor via the elevator.

There will be some food trucks parked along Chauncey Ave throughout the week, located just behind the building. Be careful when walking there because the Navy Yard is an active industrial zone with large vehicle traffic.
