Skills

HTML	CSS	JavaScript	React.js	Next.js	jQuery	WordPress
Tailwind	UI/UX	Elementor	Discord	SEO	Adobe Suite (PS)	Slack

Summary

Front-End Developer with more than 3 years of working experience. Proficient in JavaScript, React.js, Next.js, Tailwind CSS, Styled Component, Bootstrap, and UI/UX design with Figma. I increase customer engagements with excellent user interface designs. I am skilled in clean code and debugging. Critical thinking skill; identifying opportunities in problems and proffering solutions to them. I have a good understanding of Agile development practice. I adapt to a new work environment and culture hence, I will easily adapt to your working culture and offer my best skill to solving challenges in a team.

Professional Experience

2023 **Front-End Developer**, *Hisown* Germany

Hisown needed to reach out to people globally with collaborative bible study tools with nice frontend interactive features. I came in to deliver my React.js and Next.js skills to get it done. Now, hundreds of people are signing up.

- I created the landing pages and the email newsletter design with React, Next.js and Tailwind CSS.
- I collaborated with a PHP backend engineer to pull and use the PHP API for the project.
- I worked with trello to manage sprints in a team of 4 professionals ranging from UI/UX designer, Product Manager to Backend Engineer.

2021 – 2023 **WordPress Designer,** *Millenium ICT Network Ltd* Abuja, Nigeria

Millenium ICT Network, a digital agency startup, needed to gain visibility and clients to offer web services for. I came in and designed her website and got her SEO improved. Now she has gained visibility and gotten a few clients.

- I designed the company's website using WordPress and Elementor.
- I designed her logo using Adobe Photoshop with Canva for her social media banners.

2017 – 2019 **Web Developer,** *Sammar Technologies Concept Ltd* Ibadan, Nigeria

Sammar Technologies Concept is an educational technology company that deals in training and offering tech services to organizations and governments. She needed to make known her services to learners and clients. I came in to design the website and got other business openings for the company that grew her revenue as the System Maintenance Officer and Web Developer.

- I designed the company's website with a team of developers using HTML, CSS, JavaScript and Bootstrap.
- I trained her staff and clients on web development.

- I led a research team for ICT curriculum development to develop a first year ICT training course (ITF 101) for a college of education, one of the partners we got.

Project

11/2023	**dTecteet - Web3 Component API Detector on developerBOS**	Costain, Lagos, Nigeria

WebFussion Hackathon - This was a coding challenge to build API detector to help other web3 developers know the type of API used on NEARProtocol BOS.
- I wrote the code that fetches the api endpoints and displays it for other developers using React.js.
- I designed the user interface using Figma.

8/2023	**Edumore - Addressing Poor Standard of Education in Nigeria**	Victoria Island**,** Lagos, Nigeria

ALX, Nigeria - Here in a team of 6 persons, we addressed poor educational standards in Schools and proffering solutions by creating a tech based solution.
- I designed the UI/UX for the project and did the presentation to stakeholders.

Education

05/2023 – 2024	**Software Engineering**, *ALX*	Lagos, Nigeria
06/2022 – 01/2023	**Fullstack complete Web Development Bootcamp** App Brewery - *Udemy* HTML, CSS, JavaScript, React, Node.js, MongoDB.	San Francisco, CA, United States
09/2011 – 06/2016	**Bachelor in Ag. Extension**, *University of Nigeria, Nsukka*	Enugu, Nigeria
