

Response Tracking Grid – 8 Candidates

To use this grid, fill in candidates' names in column 1. Read down the column for each question. For example, in Q#1, candidate 8 is the first respondent, followed by candidate 1, then candidate 7, then 3, 6, 2, 5 and 4. As you call on each candidate, cross out the number that matches their name and then read down the column to the next higher number and call on the candidate who matches that number.

Name	O.R.	Q#1	Q#2	Q#3	Q#4	Q#5	Q#6	C.R.

***OR = Opening Remarks, CR = Closing Remarks**

This table is balanced so that each candidate has an equal opportunity to respond first and last.
