

Subject line Some ideas

Hey Lonnie Jordan

You have a sick physique and you have amazing skills because you can workout in your jays without creasing them 😊

Although you have some great things going for yourself I have some ideas for your online business that might make things even better

Of course I have no 110% guarantee that they will work and I can only see your business from the outside

If you are interested in discussing these ideas with me then just let me know

Have a good day

Ragnar
