

**Directions:** Please pick one of the following candidates. You are going to research their platform on immigration. In political campaigns candidates give “stump speeches,” these are speeches where they state their stances on an issue to get people to support them in the race. You are going to write a short stump speech for your candidate about their stance on immigration and create a chatterpix about it.

| Democrat                                                                                                                                                                                  | Republican                                                                                                                                            |

|                                                                                                                                                                                           | <br><a href="#">Donald Trump</a><br><a href="#">5 Point Plan</a> |

**Guiding question/ Directions:**

1. What are the candidates key points in their plan? Is there a bulleted list or items highlighted on their website?
2. Take this list and turn it into a 30 second speech.
3. Find a photo of your candidate on the internet and save it to the camera roll.
4. Open chatterpix and use that photo. Record yourself giving your stump speech.
5. When finished share it to your photos. Then go into your photos and export it into your drive titled: "Immigration Stump Speech"
