

Hi friends,

As you might know, Ukraine is at war. A lot of its defense will be on regular people, volunteers - and this list aims to help them.

This list has been vetted, and only includes people and organizations that are trusted and fully accountable, run by Ukrainians and go directly to Ukrainians. It will be updated over time, as needs and priorities shift.

*Status update:* there are a lot of ways to help Ukraine now, a lot more than you can find here. However, all links on this list are still valid and effective, but at this time the need for this list is not as dire, and I have stopped updating it. Thank you, and please keep helping Ukraine whenever you see a chance.

*\$8718 has been venmoed to me personally so far and got distributed to orgs below as seemed most urgently needed at the time of donation. Report can be provided on request.*
