Directions:

- Look over the issues. Make sure you know what they all are. Don't just skip over an issue because you have never heard of it before. Do some general reading on the issues. (You don't need to know every issue, but you should know most of them. Be a learner and not a finisher)
- Select the three you think are the most important. Then, answer the questions below. Try to be as detailed as you can with your answers. Making a statement and supporting your thoughts is the entire premise of this class.

Topic 1:

Summary of the topic

Who are the players? Look at all sides of the issue.

What you already know about this topic.

What you would like to learn about this topic.

Why this topic is important in society TODAY.

Topic 2:

Summary of the topic

Who are the players? Look at all sides of the issue.

What you already know about this topic.

What you would like to learn about this topic.

Why this topic is important in society TODAY.

Topic 3:

Summary of the topic

Who are the players? Look at all sides of the issue.

What you already know about this topic.
