THE MANIFESTO OF HUMANITY

🌊 LET US CHANGE MANKIND

Mission Impossible? Not Anymore.

In life, we are given one of the greatest privileges of all —

to meet other people and change the world.

Starting first with you.

This is the essence of life.

So why can’t we?

Why can’t we change mankind?

We could.

If we simply started forgiving — and began anew.

By doing the right thing. Right now.

Could it really be that simple?

Just to control human greed and pride once and for all — the right way.

Your way.

The 8.2-billion-people way.

💫 THE MISSION IMPOSSIBLE OF OUR LIFETIME

We know it sounds crazy.

And yes — it’s absolutely berserk.

Mr. Tom Cruise — civilization is already fighting the impossible, as we all know.

Corrupt kings without crowns.

Rogue presidents and popes with too much power to handle.

Fast-growing criminals and
politicians craving

the dirty money of hardworking
people —

they all occupy the human mind and
soul every day.

That’s why they get drunk and go
mad.

True surfers do not.

True athletes do not.

True humans do not.

So who is to blame?

It’s always the others driving the system insane —

and the system driving everyone else the same way.

Except for the ones it never sees:

the last true humans with integrity.

The system needs us — the right people —

to keep the human spirit alive.

Not the American Dream,

but the one true human dream of all mankind:

to control our greed and stop killing nature —

and above all, stop killing the human mind.

Stop.

We don’t need more.

We’ve had enough.

Stop killing our minds.

How much longer will society keep up this ridiculous charade?

How much longer will we keep lying to ourselves — always the wrong way?

We must start believing the right way.

Stop dreaming only for yourself.

For what?

For money? For greed?

For more things we don’t even need?

We must start learning how to
dream for all humanity —

to find peace of mind for all.

This is who we are

⚡ THE WRONG SYSTEM

Stop following fools on social media

just to feed your personal greed.

Stop ignoring those who could
actually save our world.

Start choosing the right way.

Stop wasting precious time chasing
the illusion of holidays —

live every day, like we do.

Stop buying what you do not need.

Still, millions suffer, die, or lose
their minds unnecessarily —

every single day.

Right next to you.

We have already lost an entire
human history

to our undying human greed —

to the endless wars between the
rich and the poor

that should never have existed.

That’s how deep our hate and anger
run.

That’s why the world is what it is today —

a complete mess.

A global disaster.

Humanity itself.

Unnecessary wars.

Unnecessary businesses.

Unnecessary politics.

Unnecessary religions.

All to feed the few.

And now, the new gods: social media and AI.

Too much is never right —

except for integrity.

Do what is right — right now.

Stop walking the wrong way.

Stop feeding your personal anger, greed, and hate.

Help start creating more integrity.

STOP

You are tired.

We understand.

You just don’t know what to do.

We understand that too.

That’s why we started SURFMANKIND.

FOR FREE.

To help you — for free.

To start living — and surfing —
with integrity.

Call us crazy, angry, stupid, or
berserk —

but it's simply the right thing to do.

Because life and surf have been
more than generous to us —

and they can be the same for you
too.

For free, on the basis of integrity.

Start by respecting all locals, life, and surf — the traditional way, re-evoluted, the universal way.

Because that's how life and surf should be —

everything built on the principle of integrity:

the universal key to life.

We already created everything mankind needs

to live humbly, freely, and with dignity — across the globe.

The only thing missing is more human integrity.

The Mission Impossible.

Possible thanks to all the small societies of the world —

every local community and every traditional lifestyle,

from the young Canarian people

to the ancient tribes of humanity.

We owe it to them all.

Not for money, fame, or fortune.

Not for politics or belief.

But for the one truth that unites us all: Human Integrity.

Feed your humble human greed —

not with lies, but with truth.

With love, forgiveness, integrity, and surf —

to create the first human amendment:

Life with Integrity. Surf.

No more trapped people.

No more unnecessary suffering by force —

only blessed human beings,

free by nature,

living on the basis of integrity.

For all who understand that freedom comes with duty —

by living and surfing

with Integrity First, Always.

This is who we are —

SURFMANKIND of Planet Earth.

The last of human nature — living to inspire others to do the same.

We take our time.

You may not.

That’s why we must inspire you too.

Because to inspire is to live.

This is who we truly are.
