CS Design Sprint

CONSIDERATIONS FOR SUCCESSFUL OUTCOMES

Data, Communication, and Celebration		
What results are we trying to achieve? Increase participation numbers in all categories Increase bonds between MS and HS Raise school spirit Projects between other schools and their clubs	How will we measure our progress? See which ages are responding well If participation is consistent through future years Have a project or culminating event which showcases progress	What data will we collect? Activity fair to promote clubs # of people participating Time/tradition - does it last? (optional) Spirit, how do students feel about these ideas? End project to see accomplishments
How will we know we have been successful (indicators of success)? Interview random students to give their opinions on whether we are successful in our action plan - If it is positive, we have been successful; increased participation numbers; development in HS and MS bonds - GB comfort in transition to HS, increase in communication/interaction, increasing the POOL of participants;		
How will we communicate our action plan to the community? Online surveys, morning advisory sessions, high school advisory, having administration send out emails - MAKE SURE NOT TO BLEND IN WITH THE OTHER DAILY ANNOUNCEMENTS. Advertise		
How will we celebrate success?
