

[sigh] If this is going to happen, it is going to happen exactly how I say it is. Listen to the rules because I am not going to go over them twice. You know how much I hate to repeat myself. Number 1, since you are the one that ended it with me only to have to come crawling back, I expect you to be the pathetic little puppy you are and beg me to take pity on your sorry ass. I'm doing this for you, not for me. You are not my ex anymore, no. You're my dog. You don't speak. You bark, whine, whimper. I heard another human noise from that mouth of yours, I'm kicking you out of my apartment. Number 2, you don't get to fuck me. No part of you is going to be entering any part of me. This includes your tongue or your fingers. And finally, number 3, things have changed in the few months that we have been apart. After you left me I discovered something about myself. It turns out I'm not as submissive as I thought I was. In fact, I actually prefer to be the one in control. So you are going to be an obedient, well trained, little dog for me and let me fuck you. If you are okay with that, undress and leave your clothes by the door and crawl to the bedroom.

[fabric shuffling] Good bitch. Make sure your clothes are nice and neat. If you don't care enough to fold your shirt and pants then why should I play with you? Come on, you are neater than that. God, you are so stupid, do I have to do everything for you? I was gracious enough to give you a pity fuck after you texted me and hurried to my place but this is low, even for you. Look at yourself. Naked on your ex's floor, trying to fold your clothes correctly. There you go. That's better. Now crawl to the bedroom like a puppy. I know you know where it is. I need to get a few things for what we are going to be doing tonight. Including the strap that I'm going to peg your ass with. Lube is in the top drawer, while I'm getting changed I expect you to get yourself wet enough for me. When I come back in, I'm not waiting. I think I've had more than enough patience with a puppy like yourself.

[pause] My, my, my. What a lovely site to walk in. It's nice to see you humbling yourself. You are finally behaving like the little bitch you are. You're actually doing good puppy. Let's see if you can keep it up. Fuck yourself back on your fingers. Yeah. Just like that. Remember, don't talk. I don't want to hear your voice. It's dog noises or silence. You were always so much cuter when you kept your mouth shut and took it. **[chuckle with a spank]** Just a few months ago, you couldn't make me cum and yet here you are. Furiously fingering yourself on my bed while I stroke my strap getting ready to fuck into you. Turn your head to the side. Do you see it? Yeah, it's a pretty gradient one. I figured I would give you something easy the first time you cum on my strap.

[spank] Our relationship might have actually lasted if you were willing to be such a bitch for me. I had no idea there was a good little puppy inside there all along. Maybe you weren't so bad. They say dogs sometimes get stressed out when they think they are the alpha and lash out. Is that what happened? Huh? Did my little puppy dog think they were in control when they weren't?

[chuckle] If you did, that's adorable. After all, I'm not the one texted you. I'm not the one who broke up with you. I'm not desperate puppy on my bed practically begging me to fuck you. You want to feel my strap going inside you so badly, don't you? You want to feel it sink inch by inch until you slowly lose your mind. It's a good thing this isn't going to get me off because after I make you cum on my strap, you are going to eat my pussy until I've orgasmed at least 20 times. One for each and every time you complained I was too hard to get off. Now let me show you how to actually fuck someone.

[improv with wet noises and listener orgasms]

See? That's how it's fucking done puppy. Ah, ah, ah, don't put your head down. You're not done yet. Get between my legs and start eating. You still owe me at least 3 orgasms doggy. Now get to licking.
