

- June 9th, SilvaGunner uploads [Futari Happiness \(NOZOMI Mix\) - Love Live! School idol festival](#)
 - This video is the main foreshadowing of the reboot, with Silva saying he needs new software to make the rips because the old software doesn't work correctly anymore.
- June 17th, SilvaGunner uploads [Snow halation - Love Live! School idol festival](#)
 - This video is what starts the reboot.

ESTABLISHED INFO: (This is subject to change.)

- A pre-reboot rip contains post-reboot description ("Composed by" and "Available on"): [Grand History - La-Mulana](#)
 - Curiously, the link to the playlist in the same description is broken, with two more rips containing this same error, each with an invisible character between the N and 8 in their URLs:
 - [Merry Go Round - Super Mario 64](#)
 - [Ringside \(Perfect Ver.\) - Rhythm Heaven Fever](#)
 - [Puzzle Plank Galaxy - Super Mario Galaxy 2](#)
 - However, these are confirmed to bear no meaning:
 - https://cdn.discordapp.com/attachments/149276276627210240/194637028275650560/Screenshot_2016-06-20_21.17.22.png
- Similarly, a post-reboot description contains a pre-reboot description ("Composer" and "Platforms") [Tem Shop - Undertale](#)

- SilvaGunner tweeted [this](#) earlier than the reboot, but has not been looked into.
 - It has been speculated that if you remove the 7s from the code it is either a Mario Maker course, a phone number, a splatoon passcode number, or a fax machine number, but these have all been proven false.
 - A phone number (418-641-6422) was thought to be related, but was proven false. (The number simply just plays a dial up sound and hangs up.)
 - Total numbers add up to 22, when divided by the prominent number (7) it equals near Pi (3.14...)
 - Most likely irrelevant to the ARG due to it being tweeted before reboot.
- No rip was posted on June 20th at 10:00 PM EDT.
 - This time is 7:00 PM PST, the time zone the channel uses, because it is the same one YouTube is run on
 - Source:

https://cdn.discordapp.com/attachments/149276276627210240/194638109323952131/Screenshot_2016-06-20_21.13.01.png
 - Also not uploaded at 7 post reboot because of the obvious reference to 7 Grand Dad
- Super Mario 64 playlist “updated” with nothing new. No private or unlisted videos.
- Rips have been seen having their titles edited from CD versions to OST versions throughout the day.
- The 9:00 PM EDT rip contains the phrase “My name is Christian Ch-” near the end. (timestamp 3:25)
 - [Dark Wastes \(Fire\) - Fire Emblem Fates: Conquest](#)
 - The phrase seems to be taken directly out of one of Christian Weston Chandler’s videos. Because he’d commonly say “My name is Christian Chandler” or a similar phrase at either the beginning or ending of most of his videos, it is currently unknown which video this particular recording came from.
- A post-reboot rip contains a line at the end of it. The video says “From this moment on, none of you are safe.” [Title Theme \(Director's Cut\) - The Flintstones: Rescue of Dino & Hoppy](#)
 - The rip is taken from this [clip](#) from The Simpsons, in which Homer sings a modified version of The Flintstones theme on the way home. The only things that this rip modifies is the addition of the voice line at the end. Homer’s scream was present in the original, as he was about to hit a tree
 - This voice excerpt appears to be from the Batman ‘99 cartoon.
 - [The voice excerpt can be found here.](#)

- Certain rips have the “Read the channel description, please.” saying altered in some way.
 - A good example of this is a rip of Portal 2 where the saying has been altered to “Read the channel description, please” From [I Saw A Deer Today - Portal 2](#)
- The post-reboot rip “[Uwa! So Temperate.♫ \(Unused Vocal Mix\) - Undertale](#)” has a line that says “sjq bhhjo evncbtt” in its description. Once every letter is rolled backwards by one, it says “rip again dumbass” which is a reference to one of videogamedunkey’s videos, who uses SilvaGunner’s rips in his videos.
 - In fact, it is a direct reference to videogamedunkey’s video “[CS GO : Rip King](#)”
 - Interestingly, this line is used in another SilvaGunner video “[Fighting - Final Fantasy VII](#)”
 - The next rip after [Uwa! So Temperate.♫ \(Unused Vocal Mix\) - Undertale](#) is “[Dogbass - Undertale](#)” which was an extension of a song used in the same videogamedunkey video.
 - The same rip also includes strange clicks throughout the video, and is being looked into currently.
- 2 videos were added on June 20th at 11:00 EST:
 - The first of which was [In-Game Music \(Alternate Mix\) Metro Cross](#)
 - The second was a rip of [Gaster's theme.](#)
 - 2:06 - The Gaster’s theme video contained Windings in the lower half of the video for portions of it. Deciphered, it reads “Azukete Please.”
 - Curiously, Triple-Q tweeted this same message back in April: <https://twitter.com/triplekyun/status/724370665449517057>
 - **PLEASE NOTE: We are sure Triple Q isn’t part of the ARG.**
 - However, we should note that this tweet along with the Deus Ex rip referenced below were each published on April 24th. Could just be a coincidence though.
 - This is a reference to Snow Halation, as “Azukete please” is part of the lyrics. (Source: <http://www.animelyrics.com/anime/lovelivesip/snowhalation.htm>)
 - A tumblr link may also be related to this, it contains a video of Snow Halation that has been taken down by Bandai_Visual due to copyright reasons. [The Tumblr can be found here.](#)
 - [The windings can be found here.](#)
 - Thumbnail/1:06 - “or better than kings... gods”
 - Reference to Deus Ex, which the UNATCO rip has various artifacting throughout the video.
 - All of them are exactly the same image.

- Image shows up 77 times, obvious reference to 7 Grand Dad again.
 - 2:06 - “azukete please”
 - The Undertale playlist link links to [Undertale - Undertale](#), a pre-reboot rip.
 - Playlist link later got updated to proper link.
- At -11:40 PM EDT, a playlist for Frog Fractions is created, with only one private video in the list. The rip is said to be released at around 12:00 AM EST.
 - Also updated at ~11:40 PM EST, Cave Story and Ghost Trick playlists. Could be either for 12:00 AM EST.
 - Ghost Trick rip is not related to ARG. (as far as we can tell)
 - Cave Story rip may not be related either.
 - Above debunked, [6AM - Animal Crossing: City Folk](#) released.
 - Seems to be FNAF copy over again.
 - 12:00 AM EST == 6 AM BST/GMT-0
 - Added to playlist 4 days beforehand, meaning this may not be part of the ARG. This also means it was pre-uploaded pre-reboot.
 - It's also worth noting that it was 6 AM in the Netherlands is 12:00 AM EST too, where SilvaGunner is canonically located according to channel description.
 - Videos in all three playlists still unlisted, might be 3 separate videos.
 - Possible future videos for artists that have to go to bed at the time.
 - Pre-uploading happens a lot.
 - The fact that the rip was [6 AM from Animal Crossing](#) backs this up even further.
 - More playlists updated: Rhythm Heaven Megamix, Kirby Super Star, Sonic Rush, Kingdom Hearts: 385/2 Days, and Yume Nikki.
 - Cave Story rip released. Nothing special found.
 - After Cave Story rip was released, the Sonic Adventure 2 playlist was updated along with the Undertale playlist.
 - A sidenote: every 30 minutes there seems to be a new rip, and every 15 minutes there's an update to a playlist. (no significance to the arg probably, just wanted to point it out.)
- At 2:00 AM, Silvagunner uploaded [Curiosity- Frog Fractions](#).
 - This song appears to begin reversed, then by the middle slows down, plays forward, and resumes.
 - Also, this is one of the few songs that features Auto-Captions.
 - So far, nobody had managed to source the speech from the song

 - No composer listed, not even set to N/A or Unknown.
- At 12:00 PM EDT, Forest Trail (Alternative Mix) - Kirby's Adventure was uploaded:
<https://www.youtube.com/watch?v=q8XGjRIaBWg>
 - At the end you can hear a loud "TO", which is possibly a reference to "todokete" from the chorus of Snow Halation
 - Background is morse code, approximately translates to "I can't deal with this. You('re) funny. You fucker. Go my way."

- At 1:00 PM EDT, Hyrule Field - The Legend of Zelda: Twilight Princess was uploaded: <https://www.youtube.com/watch?v=EkcSHKZdvZo>
 - Like the 6 AM rip earlier, this rip was uploaded 4 days ago, pre-reboot.
 - A comment was posted saying something about a different song from a different Zelda game from Silva
 - Another comment replying to someone was also from Silva with the text "WHY WOULD YOU DOUBT HIGH_QUALITY_RIPS, MY DEAR. I UPLOADED HIGH_QUALITY_RIPS ONLY. "
 - Both comments are still visible.
- Also worth noting that at 12:59 PM EST, he tweeted out this song <https://youtu.be/xtZnrDvgoOQ> with a message in dutch, "Toen ik klein was was dit altijd mijn favoriete liedje". When Translated into english via Google Translate, it reads "When I was little it was always my favorite song". He deleted the tweet later. (may or may not be relevant) Here's a picture of the tweet. <https://i.redd.it/o4kh8p0kco4x.png>
- At 2:00 PM EDT, no rip uploaded.
- At 2:15 PM EDT he tweeted "Rock My Forum". The tweet was promptly deleted.

 - Only audible ones are "fuck bees" and at the end "I feel kinda gay"

- Some speculation: the mass email said to come “over the next 2 week period” from the ARG is going to be from the email address EnlightenedRhombus. A rhombus has all parallel sides, maybe hinting about there being SilvaGunner and GilvaSunner, 2 different channels.
 - Perhaps a parallel universe kind of thing.
- 4:30 PM EDT Silva tweets out “Where’s the Wii Hotline Shop Channel?” Tweet is deleted instantly like last time.
 - Reference to how toonlink hasn’t made a promised mashup of Hotline Bling and Wii Shop Channel.
 - “Wii Hotline Shop Channel” could be the alternate universe version of “Wii Shop Bling”, the mashup’s actual title.
- 5:00 PM EDT, Able Sisters - Animal Crossing uploaded: https://www.youtube.com/watch?v=9bbyCczS_c8
 - Description includes a game system called “iQue Player”.
 - Chinese rebranded N64
 - Adult Swim skit halfway through.
- Sometime after 7:00 PM EDT, a private rip from Felix the Cat was switched from private to unlisted and then quickly back to private, but with enough time for it to be downloaded
 - It appears to share certain attributes from Planet Robobot’s Puzzle Room, referencing the earlier incident.
 - Video source: https://cdn.discordapp.com/attachments/194293731124314112/194955907010920449/Continue_-_Felix_The_Cat.mp4

 - Removed again after 3 minutes
 - Playlist is still there with the removed video.
- 10:00 PM EDT, Silva posted [Tropical Resort \(Act 1\)](#)

 - Last 5 days have had 6 AM rips.
 - 2:34: faint "todo," possibly referring to Snow Halation
 - [Main Theme - Mighty No. 9](#)
 - Joke rip with the voice of Silva telling how the rip is delayed, just like the game was.
- 12:24 AM EDT - Metroid playlist updated.
 - Another preupload possibly.
- Speculation: 6 AM rips are the days of reboot.
 - Set 6 AM playlists before the reboot.
 - Last 5 days have had 6 AM rips on the dot (according to canonical location time).
 - Silva tweeted a song that translated into "maybe tomorrow" at the end of the song on the last day.
 - 7 PM or the next 6 AM, reboot is over.

- 6 PM EDT - Title Theme - Metroid uploaded.
 - Was on Volume 3 but has reboot description.
- 12 AM EDT - Jenka 2 - Cave Story 3D

 - People have heard what's to be possibly Joel saying "agh no no"
 - "What's an anagram" heard once
 - Vocals more prominent <http://files.snugglesstuff.net/Jenka2editedSiivaV2.mp3>
 - Seems it's just club chatter, nothing important

- 12 PM EDT: Silva makes public [Continue? - Felix the Cat](#)
 - Most likely a because the creators decided that enough people had seen it; therefore, they made it public.
 - Update: a Reddit user found out that [the video's thumbnail has a concealed image of PSY](#). Possibly GangnamCore 3 related?
- Update: 1:45 PM EDT: Mth has confirmed that there are alternate channels made by the official team:
 - <https://my.mixtape.moe/mpxbdo.png>
 - However, further conversation revealed that these accounts are most likely just back-ups and not ARG related
 - He has also advised us to only consider official sources as part of the ARG
 - Additionally, this reddit post has been confirmed by Mth to be real.
- At ~4:00 PM EDT, an Email was sent out by **EnlightenedRhombus** to a few users.
 - It contained the follow Sound Clip: <http://puu.sh/pC9af/2fcb6b1f6e.mp3>
 - Transcript provided by /u/123zc:

 - At 3:06, if you slow down the rip, you get this:

- Transcript: i would like to fuck you up the butt(hole) then i will sneak into your room and cut your cock off (Family guy intro theme toot) and stuff it in my mouth and chew it up with my little pearlies

The Second Layer

- 12:00 AM EDT, SilvaGunner uploads [Start Up Opening](#)
 - The description has been edited: Read the channel description, please. Welcome.
 - The rip contains a Windows 98 Startup sound, then it says “Super Mario Maker!”
- 1:00 AM EDT, SilvaGunner uploads [Bowser’s Theme](#)
 - The description is normal in the video at first, but there are other changes still.
 - The rest of the video description, channel description, picture, and banner haven’t changed back yet.
 - **We’re still in the AU.**

- (pls no take out of context it's all jokes)

- 1:30 AM EDT, SilvaGunner uploads [But the Earth Refused to Die.](#)
 - Confirmed to still be in the AU.
 - Channel descriptions, banner, and profile picture are still the same.
- 3:00 AM EDT, SilvaGunner uploads [Sora.](#)
 - Description reads, "Eat my shorts."
- 4:00 AM EDT, [Silva uploads Ending Theme \(Beta Mix\)](#)
 - Starts off as Jeopardy, then transitions to "Go My Way."
 - The Jeopardy Theme used in the rip was from a bootleg version of Super Mario Bros. on the Sega Genesis that Vinesauce Joel played.

 (Large time passes with no lore, detective-club has begun to shitpost)

- June 26th, Silva uploads a [extended version of the sound clip sent out from the enlightenedrhombus email](#). This extended version explains the lore behind the SiivaGunner AU.
 - It is mentioned in the video that 'The Voice Inside Your Head' needs a few days to think about the challenge we will need to face as a community, to end the ARG. It is speculated that we will have to wait a full week, seeing as a week is seven days. (7 Grand Dad) (Other bonus: This happens to line up with the two week period mentioned in the email sent out by enlightenedrhombus, which places both events on July 3rd.) The source for the reboot sequence is seen [here](#).
- 7:00 AM EDT, Silva uploads [A Reckless Disregard for Gravity](#)
 - The original title was very long, so the subtitle was used here instead of AaaaaAA(etc.)
 - At 0:26, a scream can be heard for less than a second. (The community believes that the scream was Loud Nigra.)
- 5:00 PM EDT, Silva uploads [The Battle for Everyone's Souls \(Beta Mix\) - Persona 3](#)
 - At first glance, the video appears to be another kazoo remix.
 - Upon further inspection, a small code used to be found in the description, with no explanation as to why it was there.
 - The code, if you were wondering, was Ht7ir7l.
 - This was later discovered to be an imgur code, which shows [this](#).
 - The message is a reference to Persona 3.
 - It was also discovered, by lowering the brightness of the picture, a silhouette could be seen.
- 6:00 PM EDT, Silva uploads [Go! Go! Buriki Daioh! - Live A Live](#)
 - A few minutes after upload, the description began changing sporadically, and it seemed to be lore at first. It was later revealed that someone was just messing with the community.
 - A full list of the changes in the description can be found here. <http://pastebin.com/nxGvX7tT>

- 9:15 PM EDT, a small collection of documents was created by reddit user sirlawatson detailing the finds of #detective-club after interacting with two accounts suspected to be related to the ARG.
 - The first part can be found here: <http://pastebin.com/Eixx2XJm>
 - The second part can be found here: <http://pastebin.com/uSZCu3Q9>
 - A word of warning! When looking at the Monkeyvidya account yourself, **DO NOT** watch the video 'Dark Souls 3 OST - DLC Boss 4' all the way to the end! **For the sake of your hearing!**
 - In case you are curious as to why you should not listen to the end of that video, here is the spectrogram of the video.
<http://i.imgur.com/Oq0XOYZ.png> (Just look at the end.)
 - One of the things that stands out in the document is 'False Pedro Claims'. Other theorists believe this is related to SM64, as pannenkoek2012 coined the phrase 'Pedro Spot' to describe a spot where Mario can get stuck in between a floor and a ceiling and build up speed, mainly used in his minimal-button-press runs.
 - A more accurate description. (Thanks [Sphere Friend](https://www.youtube.com/watch?v=vaJOVyfPaBE): <https://www.youtube.com/watch?v=vaJOVyfPaBE>)
- 11:00 PM EDT, SilvaGunner uploads [Main Theme \(Alternate Mix\) - The Homebrew Channel](#)
 - This video features a dancing H3H3 without a shirt or pair of pants. This is a reference to a pre-reboot rip, [Scrap Brain Zone](#).
 - The line 'Wow Ethan,' is taken from an H3H3 video.
 - Extra: The woman speaking is Michelle Obama.
 - The line 'This is illegal, you know.' is taken from a cutscene in the Zelda CDI game series.
 - *If those can even really be called games.*
- 2:00 AM EDT, SilvaGunner uploads [Monochrome Shop - Digimon World](#)
 - At first glance, this rip appears to be a low quality rip, with Hotline Bling layered over the original track.
 - A strange thing to note is that the background picture does not match the thumbnail, which has rarely happened. Another occasion was the later uploaded [Ground Theme Rip](#) from Super Smash Bros. 3DS, in which the thumbnail was Mario, but the background picture was Luigi, presumably because the Rip featured greenday.
 - *The year of Luigi shall never end*
 - Delving deeper into the track, the video cuts to static at 1:29.
 - The strange video shown has webdings and a reversed video file. The audio is the laugh from the original post of the old meme, 'Deez Nuts', and a voice saying 'Meet the Flintstones.'
 - A shot of a man rubbing what appears to be a basketball is also shown. It is currently unknown what the source of this clip is.

- The webdings have been translated, saying '**AAYUDA he has already won**' (I had to translate this myself. Nobody paid attention to the first set of webdings.) and '**busca el pato**' (which had been roughly translated to 'search the duck'. The community believes this means we should search for King Dedede due to the amount of King Dedede accounts in the comments of the rips, though it could be anything with a duck somehow involved.)
- A King Dedede rip was uploaded, but was later removed. The featured meme was said to be JustinRPG.
- 2:00 PM EDT, SiivaGunner uploads [Pokéstar Studios: Purified - Pokémon Black and White 2](#)
 - Strangely enough, while it might not be lore, the cry of the pokemon Fletchling can be heard five times.
 - This is slightly significant, seeing as Pokemon Black and White are Fifth Gen games, and Fletchling was introduced in the Sixth Gen games. While this may have nothing to do with the ARG, it's still interesting.
 - While this is a bit of a stretch, the Fifth Gen pokemon games introduced Ducklett, the Water Bird Pokemon.
 - The meme featured in this rip is from [OFF when fighting the second boss.](#)
- 3:24 PM EDT

Blazephlozard Today at 3:24 PM
Did yall ever find the duck?

- 5:00 PM EDT, SilvaGunner uploads [Home Sweet Home - Earthbound](#)
 - The track is a simple rip, consisting of just The Simpsons and Family Guy themes for most of the song, but at certain points some lore is slightly revealed.
 - At 0:11 and 0:46, the audio begins to loop, signifying an audio glitch. This is similar to what the rips were doing previously, before the second reboot.
- 9:00 PM EDT, SilvaGunner uploads [The World Adventure ~ Title Screen - Sonic Unleashed](#)
 - The description has reverted somewhat to it's pre-reboot style, with 'Performed By' and 'Platform' instead of 'Composed By' and 'Available on'.
- 9:00~ PM EDT, SilvaGunner posts two strange tweets calling out the commenters.

- These tweets are believed to be the character 'The Voice Inside Your Head'.
 - Reddit seems to think he's Dinkleberg for some reason. (Fairly Odd Parents Character. Dad Character hates him with a passion.)
- 10:00 PM EDT, SilvaGunner uploads Ending - The Terrible Whiteness of Appalachian Nights
 - The description has been modified slightly, stating 'There's nothing to do but sleep.'
 - Even though the description has been modified as such, it still is five days until the suspected endgame.
 - The video was taken down, but luckily I still had a copy of the video. [Click Here](#)
 - When sped up, a unknown track and then the Eight Melodies from Mother are heard. [Sped Up Version](#) [Eight Melodies](#)
- 4:00 AM EDT, SilvaGunner uploads [It's Showtime! \(CD Version\) - Undertale](#)
 - This is a lore video even though it doesn't look like it. Just like in the previous layer, the first two notes of The Flintstones is played before the music abruptly cuts out.
- 11:00 AM EDT, SilvaGunner uploads [Underground Passage - Metal Gear Solid: The Twin Snakes](#)
 - The audio is from The Simpsons Ep. 2, Season 7: The Wizard of Evergreen Terrace.
 - A single Loud Nigra scream can be heard at the end of the video.
- 2:44 PM EDT, #meme-chat has no real record, so I have to put this here because they won't.

- The file is a picture of a computer monitor, with the word 'Congratulations!' on it.
 - The original source of the picture is here: [Click Me](#)

- Downloading the picture and attempting to open it with 7zip shows a password screen.
 - The password was found in a deleted tweet from SilvaGunner, which showed '738191726374837961765828161781'.
- Successfully opening the file showed a picture labeled 'no' which is a picture of Jack Black holding a stop sign.

- 4:00 PM EDT, SilvaGunner uploads [Opening Movie - Pokémon Ruby and Sapphire](#)
 - The song is hard to hear, but it is obvious that Vinesauce Joel is singing it.

- Thanks to hearing a single line, 'So fucking drunk.' the source was found to be [Joel singing Karaoke](#). (and being the weeb he is) For the exact time, he begins singing the song at 12:38.
- 4:19 PM EDT, #detective-club compiles a document of sources used for decoding information.
 - Link: [Click Me](#)
- 4:32 PM EDT, SilvaGunner posts a reply to a tweet.

SilvaGunner *reboot*
@GilvaSunner

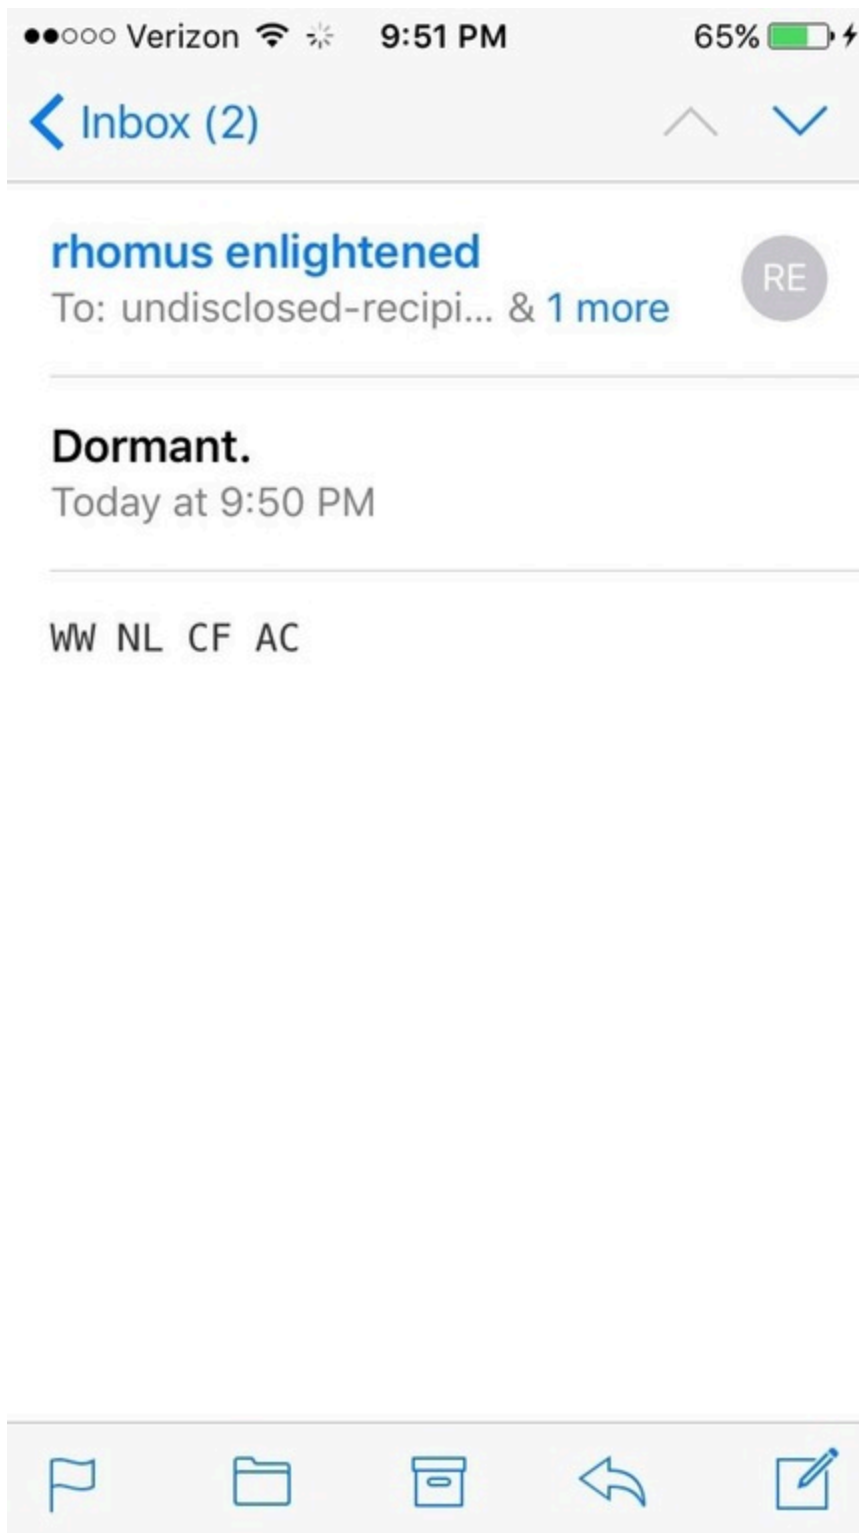

[@snop_doggy_dog](#) wha-what is-

- 6:00 PM EDT, SilvaGunner uploads [Giant's Rage - La-Mulana](#)
 - The rip is mainly simpsons, but #detective-chat claims that 1:20-1:22 sounds like 'Snow Halation', and 1:22-1:26 sounds like 'The Flintstones'.
 - They have called this 'The Merging of Universes'.
 - This game's music is pretty good, actually.
- 9:30 PM EDT, SilvaGunner uploads [It Doesn't Matter \(Alternate Mix\) - Sonic Adventure 2](#), as well as [Gourmet Race - Kirby Super Star](#)
 - These rips are generally normal, It Doesn't Matter consisting of Green Day - I Walk Alone, and Gourmet Race consisting of Soulja Boys.
 - Detective [Sphere Friend](#) believes these rips signify that the SilvaGunner team is getting bored of the reboot too.
- 10:30 PM EDT, SilvaGunner reuploads [Ending - The Terrible Whiteness of Appalachian Nights](#)
 - The picture for the thumbnail and background has been changed from a Let's Play Thumbnail to the Beginning Screen.
 - The audio is the same, though.
 - The audio, when sped up, first produces the mechanical sounding noises (Same as the real game) but then two more tracks are edited it. It is believed the first is 'London Bridge is Falling Down' and the second is proven to be 'The Eight Melodies' from MOTHER.
 - It seems kind of weird to me to take an entire video down to change the thumbnail and background picture. There is Youtube Editor...
 - At some point, the description changed to "I'm afraid."
 - Funnily enough, this is also a quote from the game.
 - If you want to play The Terrible Whiteness of Appalachian Nights, [click here](#).

- 1:00 PM EDT, SilvaGunner uploads [Dancing Mad - Final Fantasy VI](#)
 - This video is the MOST lore heavy video yet, even though it may not appear to be at first. The video starts out normally, just being the rip.
 - At 1:23, the rip stops playing, and a sound that could be radio interference is heard.
 - At 5:38, the source of the interference is revealed to be the intro to the show, 'The Flintstones', with the music from the Flintstones Video Game playing in the background.
 - The music and opening continue playing for a few minutes, until 7:45 when text appears on screen, reading 'NOW IS NOT THE TIME. NOT YET.'
 - It's pretty obvious that this is 'The Voice Inside Your Head'.
 - A bonus thing to note is the fact that the description is pre-reboot, with 'Composer' and 'Platform'.
- 4:00 PM EDT, SilvaGunner uploads [Katamari on the Funk - Me and My Katamari](#)
 - The enforcement of the new 'No Shitposting' rule for #detective-work has increased productivity, they are currently searching the rip for possible clues.
 - #Detective-Work has concluded that Vinesauce Joel's first reaction to seeing the bootleg game '7 Grand Dad' are scattered within the rip.
- 5:00 PM EDT, SilvaGunner uploads [Pulse Phase - Ridge Racer \(PSP\)](#)
 - The rip seems to use the same soundfont as Katamari on the Funk.
 - Putting the rips together produces a complete song, but the channels are a bit desynced. [Simple fix.](#)
 - Download [Katamari on the Pulse](#)
- 8:18 PM EDT, SilvaGunner uploads [DS Tick Tock Clock - Mario Kart 8](#)
 - The video is just the original music, with DHMIS Ep. 2 sped up playing the background.
 - [When thinking about DHMIS, this could technically be lore. The main message of DHMIS is that the media is brainwashing generations of children, teenagers, and adults by limiting and changing the information given to them.](#)
 - The upload time is very weird, and not at a usual late upload of X:30.
 - This even managed to throw off #Detective-Work for three minutes.
 - A joke about the video being uploaded late is made in the description, "I'm right on time."
- June 30th, SilvaGunner uploads [7 GRAND DAD](#)
 - The video consists of a conversation between The Voice and Chad.
 - A transcript is not required, as the entire video is subtitled.
 - It is believed (Now that it is 7/7) that the 'conclusion' was a joke, and that the ARG is still continuing.
- July 3rd, SilvaGunner uploads [Game Over - Mickey Mousecapade](#)
 - The background music is Designer - Panda, which is commonly related to the Suicide Mouse creepypasta.

- The last few seconds of the video contain a clip from the Game Grumps one-off episode about Mickey Mousecapade, in which Arin is doing a bad AVGN Impression.
- July 4th, SilvaGunner uploads [Title Theme - America's Army 3](#)
 - The video is the normal music, with Joel reading the Navy Seals Copypasta.
 - [Found Here](#)
 - [Obvious Fourth of July Joke.](#)
- 11:00 PM EDT, SilvaGunner uploads [The Grand Finale \(Alternate Mix\) - Mario & Luigi Bowser's Inside Story](#)
 - The rip is a direct upload of the song [A Battle of Grand Proportions](#), which was modified mid-ARG to fit the new realities standards. (Though Snow and Grand Dad are still in it.)
 - After the music is finished, a message begins to play.
 - Transcript: <http://pastebin.com/zqYS3QYZ>
 - The last bit of the message (The reversed bit) is just the ending of the message again.
- 2:00 PM EDT, SilvaGunner uploads [DK Rap \(Reprise\) - Donkey Kong 64](#)
 - The rap is played normally up to the 0:28 mark, at which the lyrics are changed, and the audio begins to distort.
 - From this point on, DK is now HL (Hannibal Lector) for the rest of the song, and is said to 'Want your face'.
 - The lore comes in at 0:55, in which the voice begins to address the current situation of the ARG from its perspective.
 - Transcript: <http://pastebin.com/m63jaCW8>
 - Originally, the description for the video said 'Just bring back Grand-' but now it just says 'boo.'
- 12:55 EDT The Voice Inside Chad's Head uploaded this on SilvaGunner's twitter account: **For those enlightened. . . you might want to check your mail.**

- Those who participated in the first ARG and emailed something to Enlightened Rhombus got this message:

- All of those are abbreviations for Animal Crossing games: Wild World, New Leaf, City Folk, and original Animal Crossing.
- All of these games have something in common: SilvaGunner ripped 6AM from all those games.
- Animal crossing games aren't the only ones from which SilvaGunner ripped 6AM; in fact all of the FNAF 6AM rips have something new in the video description. FNAF has XMZJU; FNAF 2 has <https://www.youtube.com/watch?v=7V9V90XMZJU>; FNAF 3 has v=7V9V90; FNAF 4 has .com/watch?
- If we use the order of games that Enlightened Rhombus gave us we will get this: <https://www.youtube.com/watch?v=7V9V90XMZJU>
Warning: screamers

- July 8th, the video "A Grand New Era ~Ending~ - SilvaGunner: Rebooted" was uploaded.
