Another reason you don't see our website covered with Oxbridge Essays reviews comes down to our company's mission we're intent on helping students get better grades, not building a showcase of glowing reviews.

What Students Say

Oxbridgeessays.com Review Oxbridgeessays.com Review I ordered a paper from Oxbridge Essays with a two-day deadline and I got it after a week. The support staff was unavailable during this period and the paper I received later was full of mistakes. There was even some plagiarized content.

Table of contents

There's a decent array of services for undergraduates on the Oxbridge Essays site. You can get essays, reports, and essay plans written, among other services. However, I was dismayed to find no editing or extra writing services, such as resume or business plan writing.

The result

[Oxbridgeessays.com Review Oxbridgeessays.com Review](#) But, more about it later in this OxbridgeEssays review. Now let's start with the first part of the OxbridgeEssays review – the services you can buy here.

Quality: Slapdash writing

I decided to sign up for an account and place an order. That way, I could see the quality of writing for myself. The essays I got back were very poor, and there was no way I could have used them myself at college. The writer was either in a rush or didn't care, as they hadn't

proofread it, and had even plagiarised some of it. This is pretty much illegal/legal, and terrible as I'd spent money on it.

I paid £125 GBP for my essay, which was 500 words long and written to 2:1 undergraduate level. As far as I could see, there was no promotion code or discount I could use to get the price down. That price, as you can see, is hugely inflated. It's especially bad when you consider the level of writing I got for what I paid. You can get a much better deal elsewhere.

Discounts Oxbridgeessays.com Review

Oxbridgeessays.com Review Oxbridgeessays.com Review Regarding payment methods, they accept VISA, Sage, and MasterCard. We did not see anywhere that they accept e-wallet payment options such as PayPal which would be safer for many online buyers.

Rating: 1/5

Deadlines: Not as quick as advertised

When you log in/sign in to the Oxbridgeessays.com site, you'll see that they promise your essay will come by your own deadline. However, I found that they very almost missed my deadline. If you had an important paper to hand in, this wouldn't be the safe way to order it.

There's plenty of ways to get help if you have questions or need a refund. There's free live chat, or a contact number among other options. However, customer services aren't always there to help you when you need it. I found myself waiting hours for a response when I needed it the most. If you're in a rush, this is bad news.

Company Overview

Today I am going to tell you about the Oxbridge Essays company. It is a writing service for British students and a part of The Oxbridge Research Group Ltd. The company is headquartered in London. However, if you visit the marked location, you can only find the local library. So it is unlikely that the writers have hidden somewhere behind the bookshelves. The whole situation is a little suspicious. But let me start this Oxbridge Essays review from the beginning.

Prices and Deadlines

Although the website is beautifully designed, I wouldn't say I liked the ordering page. It seems that the company is interested in making a negative impression on all new users. Plus, get ready to experience the culture shock at the local prices. The minimal price per page is £80. It seems to me that it is extremely high.

This price is relevant for a two-week deadline. But what if you're short on time? According to my observations and many Oxbridge Essays reviews, you can ask for a 6-hour deadline. However, expect the price to rise to £100 or even more. I'm shocked at this pricing policy. Perhaps these guys really hired someone from Oxford or Cambridge? Otherwise, I cannot justify such a high price.

Paper Quality and My Experience Using This Service

Is Oxbridge Essays legit? Probably yes. But when I first saw the order form, I thought it was not a writing service but part of a student's research project. The window for ordering papers looks like a multi-page manuscript with endless notes, options, and lists. It is very uncomfortable. Why don't the site owners change this page at least a little?

Anyway, I chose a 2-page descriptive essay on the History of Art. First, I asked the writer to

describe the stages of the birth of the Renaissance and the basic terminology. Then, since this is an important part of the culture, I asked to describe the main creative patterns of Renaissance artists. I also chose an 11-day deadline and APA reference style. In general, I had to spend about 20 minutes filling in each part of the ordering page. This was not the best experience of my life.

So let's discuss the paper quality. My essay was partly good, except for plagiarism and ignoring some of my requirements. In particular, the writer pointed out some painters of the Renaissance but did not write anything about why he or she chose them and how they are connected with the emergence of a whole cultural era. In addition, I did not find clear definitions of the Renaissance and those creative aspects that guided the artists. Some of the paragraphs were unrelated to each other. I got the impression that the writer just found some information on the Internet and decided to add it. Now I'm not surprised why I found so many negative Oxbridge Essays Reddit reviews.

Refund and Revision Policies

One interesting aspect is the lack of a clear refund algorithm or revisions. I found only a small "Dispute Resolution" block. However, you can look at the screenshot and understand that the company used very vague wording without describing a precise algorithm of actions. Is Oxbridge Essays legal? I am not ready to answer this question. But the company is doing everything to destroy student confidence.

Support and Communication

The site has an online chat so that you can contact support agents. The problem is that they are useless. I asked a very simple question about data privacy. I wondered why the writing service claims that it does not transfer user data to anyone, but the site has a list of companies that can access my order details.

First, the support agent asked me to provide evidence. After uploading screenshots and direct links, I got an amazing response. My support agent advised me to use a one-time password, e-mail, and choose a nickname. But what if I pay for my order with my credit card? Overall, I didn't get an answer to my question. Is Oxbridge Essays legit? I think the answer is obvious.

Conclusion

This is an overpriced writing service that does not provide the stated level of quality. All you'll find here are marketing gimmicks. How can Oxford or Cambridge graduates make so many mistakes? I am disappointed and think this site does not deserve your attention. You should find another writing service. Don't believe in fake reviews and advertising slogans. Local writers are not ready to work well. I'm not even sure that the so-called experts are native speakers.
