What Is EDDM Agency Fortune

DFY website & toolkit to launch a local postcard marketing business. With this system, customers can offer local businesses a spot on high-impact 9×12 postcards delivered straight to neighborhood mailboxes – no mailing list or tech skills needed.

How Does It Work?

1 Install the EDDM Agency Website

Use the provided backup file to quickly set up your website on WordPress. Just add your domain and hosting, and within minutes, your postcard marketing agency site is live and ready to go — no tech skills required.

2 Promote Your Service with Included Materials

Use the done-for-you graphics, postcard mockups, and explainer content to promote your service online or offline. Share the value of direct mail and let local businesses know you're organizing a shared postcard campaign.

3 Get Businesses On Board and Fill the Card

Reach out to local businesses, explain the opportunity, and sell ad spots on the card. Once a business is in, collect payment and use the Canva template to start filling their ad into the postcard layout.

4 Print, Mail, and Profit

When the card is full, send it to print and mail using a full-service provider or the USPS EDDM system. After printing and postage costs are covered, the rest is your profit – often thousands per mailing.
