

Hello

I'm Jacob (ItzJuzt4Fun)

Skype: vipercooolman (with 3 o's)

Discord: Jacob (ItzJuzt4Fun)#4972

Services:

- Staff Management (Open)
- Community Manager (Open)
- Applications Manager (Open)
- Systems Administration (Open)
- Investment (**Reserved**)
- Business/Financial Leadership Roles (Open)

Experience (Top 5):

MC-Gamer Network (Senior Moderator/ Staff Recruiter) -

- I loved MCGamer Network, it was the first server I ever played on and by far my all-time favorite. I played MCGamer before applying a couple of years ago for Moderator. I got accepted and brought into an interview room with Taylor, she gave me the basic rundown of what was going on and said pretty much to chill out with guests and keep the community safe and watch for hackers and chat spammers. I got a mentor (his name was Ryan) he taught me everything I've learned today, I am now trying to pass my experience down to others. After a year I was promoted to Senior Moderator, I then started recording videos and playing survival games with my friends. I eventually resigned due to the fact that I wanted to start my own server because it seemed fun and enjoyable.

May, 2017 - October, 2017

Velocity-MC- *Moderator/Staff Mentor*

- This server was a favorite of mine for a long time, the reason I'm adding this in here is because even though I wasn't really into staff management at the point I did a lot with guest support and helper training process, this was a large network that peaked 500 players at one point (now down to 50) I donated to all of the game modes that they had. This is the server that has really helped me grow over the past couple years and I have been very proud to work here. This server is very structured, they have gamemodes such as: Prison, Factions, Skyblock and Creative that you can choose from. I wrote many documentations/write ups for the network, if you would like to see these documentations/projects I have worked on such as: Server Description, Server Ideas. I would be happy to share them with you. I would also to point out that I had the honor of being able to be added to the Staff of the Month wall of fame on Velocity and being noticed as one of the best staff members velocity has had over the past couple years that can be shown here:

August 2017 - ???

Spunky-Network – *Staff & Community Manager*

- I was hired on Spunky as a Junior Administrator, where I worked with assisting the managers with the overall watch of the staff. This was back when the server was under development. I was a very experienced staff member at this point, I went through an application and interview stage before getting my position, the server was expected between 100-200 players at SOTW. After a month working there I was promoted to Administrator, where I was part of the leadership team and helping more with monitoring, advanced server moderation and I started doing screenshare tests, during my administrator reign, I probably did around 5-10 screenshare tests with various different staff members. I was then promoted to Senior Administrator where I started with staff applications and basic staff and community management, I was only Sr.Admin for a week before I was promoted to Platform Administrator. The server opened while I was Platform Administrator and on SOTW on KitMap we got up to 70 players with a few YouTubers coming on and doing livestreams. I read through about 7-12 applications during this time and I really excelled in this position and was one of the most hardworking staff on the team. In time I was promoted to Staff & Community Manager, where I was fully in charge of staff issues, promotions, demotions, but mostly in charge of staff mentoring and staff recruitment. I was made “Lead” of the recruitment team and the server did really well.

N/A

ExorathMC– *Staff Manager*

- I started this server one day when I became friends with a guy named Lincoln (SpiderLincoln) and he introduced me to his friend Tommy and we starting hanging out together. He told me he had a server and he wanted me to be part of it, so I joined it and he gave me the role of Moderator+, this was when the server first started out and he didn't have many staff. The server was based off of TitanMC's Prison and it was pretty cool and the developers took good care of the server. I was later promoted to Senior Moderator once the server released to the public. I was then in charge of Classic Prison 1 and was online a ton. I eventually went into a teamspeak room and asked Joey and Tommy if I could be promoted to Administrator, they agreed and thought I had good experience, I was then put in charge of Staff and Community Management where I created the staff handbook and the guide to screen sharing and the punishment guideline. I eventually resigned due to the fact that school was getting in the way.
- (Server Closed) - Proof was on old website, here's the website: <http://exorath.us/>

Badlion - (Moderator+) - In Progress of Writing..... (Proof: Given upon request)

Mineplex - (Senior Moderator/Social Media Team Lead/Staff Management Team Member) - In Progress of Writing..... (Proof: Given upon request)

MORE BEING ADDED HERE SHORTLY! (For Hosting and IRL Experiences, PM me!)

I've also worked on many other fabulous networks and servers in the best which I would like to give a personal shout out to VashPVP, MCParks, and RetroStudiosMC. However those (the above) are the most memorable and stories I wanted to share personally with you guys during the application process, although I do have many fond memories on many other servers as well.

Payment:

Community & Applications Management: **FREE**

Staff Management: **FREE** (unless server already has 500+ players)

Awards:

Staff of the Month:

1. Velocity-MC (August, 2017)
2. ThanatosPrison (March, 2017)
3. MC Gamer - Network (May, 2014)

Other smaller awards:

1. VashPVP
