Infinite Campus Portal Guide

You can access the parent/guardian and student portal using a web browser or through the mobile apps for your phone.

Parents/guardians will need a Portal Activation Key to create an account. The school's office can provide this to you. Each parent/guardian has a separate Portal Activation Key.

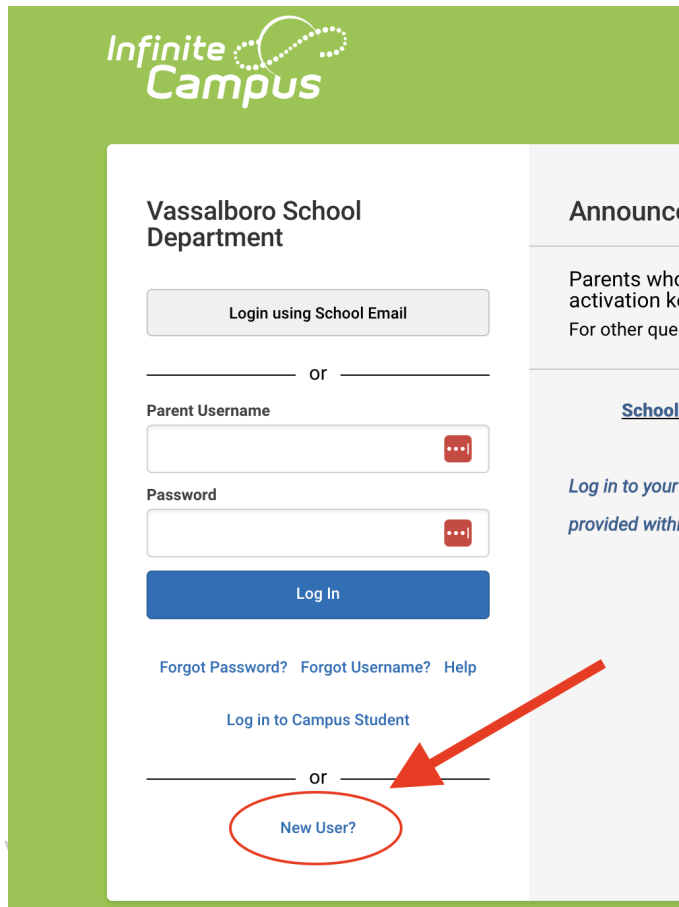

Students have their own accounts and are provided with their login information at school.

Creating your Campus Portal Parent/Guardian Account

Go to <https://mecloud1.infinitecampus.org/campus/portal/parents/vassalboro.jsp> in your web browser.

(There should also be a link to the portal on the school's website.) Select the "Campus Parent" button on that page.

You will need to set up your account the first time you use the portal. The school's office can provide your Portal Activation Key.

Click the link for "New User?" at the bottom of the login screen. Once verified, you will be able to choose your username and password. Please record this username and password in a safe place.

On the next screen, enter the Portal Activation Key provided to you by the school, and then set up your username and password.

New User?

Activate your Campus Portal account by entering the activation key sent to you by your district.

If you do not have an activation key, please contact your district to obtain one.

Using the Campus Portal from your Web Browser

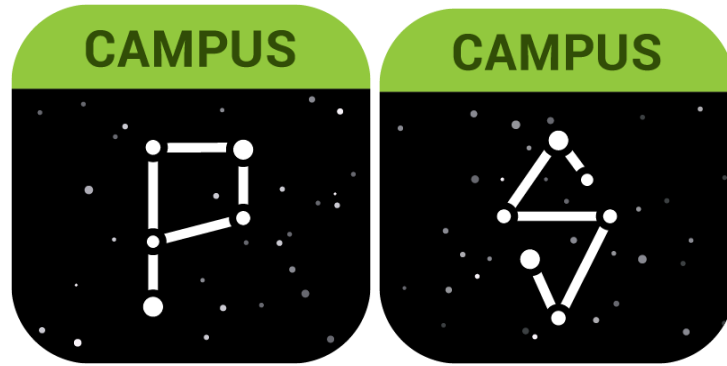

Once you log in, you will see a screen similar to the one below. The button with the three bars on the top left of the screen will show the menu of information.

You will have access to a variety of tools and information. Each school can determine which tools are available.

Campus Portal Mobile Apps for your Smart Phone

The mobile apps are available for Apple iOS and Android Phones and can be downloaded from the official apps stores. Below are the icons for the Campus Parent and Campus Student portal apps.

When you load the app on your mobile device you will be prompted to select a district and state. You must enter a minimum of three letters for Vassalboro Public Schools and select Maine. The software will provide you with the option to select Vassalboro Public Schools from there.

After that, login is just like on your computer and you can save the username/password to your device.
