

How do I request a device for Virtual Learning?

Requests for devices for Elementary and Secondary students participating in Virtual Learning were made **during the registration process** and were shipped to the student's home school.

- If you requested a device during registration and have not yet received it, please contact **your 2024-2025 home school**.
- If you did not indicate that you require a device, and would like to request one, please contact your **current home school**.
