

Odyssey'S Cross Chain Week FAQ and Chain

Bridge URL

A: In the cross -chain week, which third -party bridges are within the task range?

Q: Bungee、BoringDAO、RouterProtocol、deBridge、Connex、Varen、Banxa、Hashflow、MtPelerin、CelerNetwork、Rango、DeGate、AcrossProtocol、LI.FIPProtocol、Composable、HopProtocol、Transak、Multichain、Rubic

Note: Arbitrum Bridge is not within the range.

A: Do I only need to complete cross-chain tasks to get NFT during bridge week?

Q: Yes. by using any of the bridges/cexs listed below to move ETH into Arbitrum, you'll be able to claim the first NFT after the week ends. Also if the user uses a bridge that is have the maximum number of ETH across the chain to Arbitrum, will be able to get an additional NFT later.

A: Can I cross-chain bridge from zkSync, Arbitrum, polygon and other networks to Arbitrum networks?

Q: Yes, it is possible to cross from different networks to Arbitrum network through the specified 19 cross-chain bridges.

A: Does cross-chain have to be ETH? Or is it possible to use other tokens such as USDC, DAI, etc.

Q: It can only be ETH.

A: What is the amount required for cross-chain bridge?

Q: There is no minimum limit.
