

# Privacy Policy for Collocation Mate

Effective Date: April 22, 2026

At Collocation Mate, we are committed to protecting your privacy. This Privacy Policy explains how we handle data within the Collocation Mate Chrome Extension.

## 1. Data Collection

Collocation Mate is designed to respect your privacy.

**Personal Information:** We DO NOT collect any personally identifiable information (PII) such as your name, email address, or physical address.

**Anonymous Usage Data:** We collect anonymous events such as search triggers (LOOKUP), save actions (SAVE), and refresh actions (REFRESH). These are linked to a randomly generated unique ID (UUID) stored locally on your device to help us improve the quality of AI suggestions.

## 2. Permissions Use

**Storage:** Used only to save your preferences, search history, and favorite phrases locally on your device.

**ActiveTab:** Used only to capture the word you highlight so that we can provide collocations for it.

**ContextMenu:** Used to provide a shortcut in your right-click menu for easier lookup.

## 3. Data Transfer and Third Parties

We do not sell, trade, or otherwise transfer your data to outside parties.

Your search queries are sent securely to our AI backend (OpenRouter/Vercel) solely to process and return collocation results. No data is stored permanently on our servers.

## 4. Manifest V3 Compliance

This extension strictly adheres to Google's Manifest V3 security standards. We do not use remote code or unauthorized tracking scripts.

## 5. Contact

If you have any questions about this Privacy Policy, you can contact us through our official support channel on the Chrome Web Store.
