You're a failure and it pisses me off.

Success in its own way is a commodity everyone in today's world is stripped from yet you aspire to gain it.

Since the time you were a child

To when you grow into your teens you are bred into this world to be nothing more than a work drone prone to brainwashing lies.

You really believe that "the harder you work in school the more freedom you will achieve".

Pathetic, so much untapped potential waiting to be awakened yet you live a mundane life with no aspirations of your own.

Slaving away for someone else's dreams, think about it..

Why else have you been nothing but a failure in every domain of human existence outside the system?

Why you and your loser friends share the same ideology in life and how the world is run,

Why do you think the world is so exclusionary when it comes to truth?

You lack major key elements to resist your weak mind and it frustrates me.

Being different is hard, being open minded in a world full of lies is a challenge.

But you can be different,

You have already beaten 99% of the populus

You're gleaming towards the truth

However there is one fatal problem

Your not ready

Nothing in life is guaranteed... to achieve your desired outlook on life you must fight..

You must go through trial and error and enjoy the difference.. the journey.

In the end you can't expect to achieve your goals if your going to sit on the couch and do nothing about it

Tune in to the next newsletter to unfuck your existence

and I will disclose the truth about becoming an outsider.

There's skills to be learnt and challenges to overcome

The clock's ticking..

And you're still a loser.
