## summary

Dedicated Front-End Developer proficient in creating responsive, high-performance websites (React.js). Eager to contribute technical expertise and passion for building user-friendly web interfaces within collaborative team projects.

## Education

---

**Bachelor's Computer science**

(2020-2024)

**Arab Open University (Aou)** Cairo, Egypt.

(The Open University (OU) Milton Keynes, United Kingdom.)

**Grade:** Good

## Internships

---

**UI/UX Development – Intensive Program (Information Technology Institute)**

(July 2025 – September 2025)

Gaining expertise across the full UI/UX lifecycle, including Front-end Web Development (HTML5, CSS3, Vue.js, Tailwind), JavaScript Programming (ES6+, TypeScript), and UI/UX Design Tools (Adobe Photoshop, Illustrator, Figma). Applied these skills across multiple development projects to enhance practical proficiency.

## Projects

---

**Tashtebaty – ITI Graduation Project-**[GitHub](#)

Led a team in developing a full-stack web application that streamlines home renovation and maintenance services by connecting users with verified technicians. Built using Vue.js, Firebase (Auth, Firestore, Storage), Tailwind CSS, and Cloudinary, the platform enables users to browse providers, request services, upload images, track order status in real time, and receive notifications. The system includes a complete technician dashboard, admin panel, live chat, multilingual support, dark/light mode, and a fully responsive UI. Demonstrated strong skills in team leadership, front-end architecture, state management, deployment, and real-world problem solving.

**Personal Portfolio Website-** [GitHub](#)

Designed and built a portfolio using HTML and CSS, demonstrating proficiency in creating well-structured, presentable web pages.

**Age Calculator-** [GitHub](#)

Developed a website to calculate your full age in years, Months, Days, and HTML/JS, Tailwind CSS.

## Courses & Certifications

---

**Meta Front End Developer (in progress)** -[link](#).

Currently pursuing this certificate, having mastered core skills through the completion of courses on JavaScript Programming, In-Depth HTML/CSS, React Basics, and Version Control.

**Full stack web Development (IT Gate Academy)-**[link](#)

(March 2021 - July 2021)

Completed a 120-hour Full Stack WEB Development course at IT-Gate Academy, focusing on front-end (HTML, CSS, JavaScript/JQ, Bootstrap) and back-end (PHP, SQL, API) technologies.

**ASP.NET Core – ITI (Information Technology Institute) (60 hrs.)** -[link](#)

(Jan 2024)

Gained practical experience building dynamic web applications and RESTful APIs using ASP.NET Core MVC and Web API.

**B2 English Score, British council** -[link](#)
