Marathi-speaking Researcher for Probex Consulting

Probex Consulting conducts research and evaluations for non-profit and for-profit social enterprises, as well as foundations and intermediaries. We are currently conducting learning-focused evaluations for a portfolio of organizations that engage young men and boys on gender issues in India. We are looking for a mid-level consultant to join our team for these evaluations on a contract basis.

Responsibilities:

- Provide training on qualitative data collection
- Collect qualitative data through interviews and focus groups
- Analyze the data collected

Required qualifications:

- Fluency in English and Marathi
- Recent experience with qualitative data collection in the social / development sector

Desirable qualifications:

- Recent experience with rapid analysis of qualitative data
- Experience working on projects with a gender focus

If you think you can do a great job at what we've described above, please write to us with your CV/resume.
