

This text guide continues from the Safex Test Net CLI Guide YouTube Video here <https://youtu.be/FCOU2linFo> For instructions on how to configure safexd and CLI wallet use this link.

You can use the following document to follow along with this video and make edits to the command line examples below to create your own Safex TestNet account, as well as getting started with offer creation and feedback submission.

(Run Synced safexd)

<https://github.com/safex/safexcore/releases/download/0.0.6.5/safexd-linux-testnet6.5>

(Run CLI Wallet)

<https://github.com/safex/safexcore/releases/download/0.0.6.5/safex-wallet-cli-linux-testnet6.5>

(Download and install TWM Wallet Latest TestNet Version)

<https://github.com/safex/twmwallet/releases/tag/0.0.6-sell-stuff>

*******(Create User Account using TWM Wallet)*******

user name - "Your User Name"

Image Hosting Website -

<https://www.safex.pics/>

safex-logo.jpg uploaded as t0p9xgqp.jpg

URL: <https://safex.pics/t0p9xgqp.jpg> This link is provided as an example you can use this or create your own image link.

twitter - "Your Twitter Info"

facebook - "Your facebook info"

biography - "Your Biography info"

location - "Your Location info"

Change the ring size to 1 - This will use less obfuscation but is fine for the TestNet Environment.

Click the "Create Account"

(CLI command via safex wallet)

safex_account "wait for 10 confirmations for account activity to change to "yes" in the wallet CLI after creation a Safex Account to allow activation" This command will list all available safex accounts tied to your wallet

(Confirm Transaction IDs via TestNet Explorer)

[Safex Blockchain Explorer](#)

f26c843c696eeb76713cb2a90cf8581a8f660fd0b0baf5f5e37d07ca8a11c5b0

"show_transfers" - use this command via safex wallet CLI to show transfers

The provided Safex Wallet CLI commands below will allow functions such as listing offers, creating offers, purchasing items and submitting feedback. The code logic and examples are made available below. You can change the values accordingly to create your own transactions on the Safex Blockchain Testnet.

(create/list offers)

"list_offers" - This command will list the active offers using the CLI Wallet

safex_offer create [index=<N1>[,<N2>,...]] [<priority>] [<ring_size>] <account_username>
<offer_name> <offer_price> <offer_quantity> <offer_description>

safex_offer create 1 twm_guide price_peg 1 1000 Price pegged listing
safex_offer create 1 twm_guide no_peg 1 1000 Non Price pegged listing

(safex_purchase)

safex_purchase [index=<N1>[,<N2>,...]] [<priority>] [<ring_size>] <offer_id> <quantity>
safex_purchase 1 831493e24072931500af6fde19a84f32d970bd6fdb9227069f5d623ba4feef5
1

(Feedback Entry)

safex_feedback

safex_feedback [index=<N1>[,<N2>,...]] [<priority>] [<ring_size>] <offer_id> <star_rating>
<comment>

safex_feedback 1 831493e24072931500af6fde19a84f32d970bd6fdb9227069f5d623ba4feef5
3 Best Quality

safex_account recover <account_username> <account_private_key>
