ABSTRAK

Abstrak maksimal 200 kata berbahasa Indonesia dicetak miring dengan Times New Roman 11 point. Abstrak harus jelas, deskriptif dan harus memberikan gambaran singkat masalah yang diteliti. Abstrak meliputi alasan pemilihan topik atau pentingnya topik penelitian, metode penelitian dan ringkasan hasil. Abstrak harus diakhiri dengan komentar tentang pentingnya hasil atau kesimpulan singkat.

Kata kunci—3-6 kata kunci

ABSTRACT

A maximum 200 word abstract in English in italics with Times New Roman 11 point. Abstract should be clear, descriptive, and should provide a brief overview of the problem studied. Abstract topics include reasons for the selection or the importance of research topics, research methods and a summary of the results. Abstract should end with a comment about the importance of the results or conclusions brief.

Keywords—3-6 keywords

1. INTRODUCTION

The introduction describes the background of the problem being solved, issues related to the problem being solved, a review of research that has been carried out previously by other researchers which is relevant to the research being carried out. The maximum length of text in the introduction is 1 A4 page, 1 space, Times New Roman 11, with margins Top 2.5 cm, Bottom 2.5 cm, Left 3 cm, and Right 2.5 cm.

The introduction contains three main things, namely: background, previous literature review, and research objectives. The bibliography reference system uses numbering. Examples ^{1,2}.

Library sources are primary, current and relevant sources.

2. METODE PENELITIAN

Research methods contain the methods used to solve the problem being studied. Subsections are not numbered, but are printed in bold (Bold). Number of pages 1 – 1.5 A4 pages, 1 spacing, font 11 Times New Roman.

3. RESULTS AND DISCUSSION

Discussion of the research and testing results obtained is presented in the form of theoretical descriptions, both qualitatively and quantitatively. Experiment results should be displayed in the form of graphs or tables. For graphics, you can follow the format for diagrams and pictures. Numbering of figures and tables is done sequentially. Description Figure and table are on the left.

Table 1. Phytochemical Screening Results

Golongan senyawa	Hasil uji
Saponin	+
Flavonoid	+

Math formula

If you are using Word, use the Microsoft Equation Editor or MathType equation, written in the middle.

$$(1 + x)^n = 1 + \frac{nx}{1!} + \frac{n(n-1)x^2}{2!} + \dots$$

4. CONCLUSION

The conclusion should clearly indicate the results obtained, their advantages and disadvantages, as well as the possibility of further development. Conclusions can be in the form of paragraphs or points using numbering.

5. REFERENCES

Citations in the bibliography must be in the Bibliography and the Bibliography must contain quotations from the manuscript. The bibliography comes from primary references in the form of journals and books with a maximum of 10 years of reference literature. It

is not permitted to write "Anonymous" for authors in bibliography or citation lists. The bibliography only contains references that are actually cited in the manuscript. The bibliography must use the **Mendeley system** in the style of: **American Medical Association 11th edition**:

1. Maarisit W, Yamazaki H, Abdjul DB, Takahashi O, Kirikoshi R, Namikoshi M. A New Pyranonaphthoquinone Derivative, 4-Oxo-rhinacanthin A, from Roots of Indonesian *Rhinacanthus nasutus*. *Chem Pharm Bull (Tokyo)*. 2017;65(6):586-588. doi:10.1248/cpb.c17-00074
2. WHO. *WHO | Global Tuberculosis Report 2019*; 2020. doi:1037//0033-2909.I26.1.78

Review Stages

Articles are submitted to the Editor electronically for review as email attachments. Manuscripts are submitted in one-column Word.doc format, including figures and tables.
