Greetings Mustang Nation!

I am pleased to announce to you that Mackenzie Nason has been selected as the Maine Principals Association Principal's Award winner for the Massabesic High School Class of 2025. Please help me congratulate Mackenzie on this well-deserved recognition. As a recipient of this award, Mackenzie has been invited to attend the MPA Honors Luncheon that is held each year to honor one outstanding high school Senior from each MPA member school. The criteria for this award are academic excellence, outstanding school citizenship, and leadership - Mackenzie exemplifies these criteria and it is an honor and privilege to name her as this year's recipient.

During her time at Massabesic High School, Mackenzie has established herself as a formidable academic student and is ranked in the top ten of her graduating class. Additionally, she has earned Summa Cum Laude status each semester of her high school career. Mackenzie has also devoted countless hours towards promoting a positive Massabesic culture and environment with her participation in the National Honors Society (Grade 11 and 12), Student Council (Grade 9-12), and her service as Class President her Junior and Senior year. Mackenzie, in her role as Class President, has successfully organized a highly-attended Senior Scare this past October, and a fantastic March Madness Dodgeball Tournament last year - both of these events brought such great energy and enjoyment to our school community. Mackenzie has also logged 122 hours of community service (and counting) with local youth lacrosse, basketball, and field hockey programs. In addition to her club activities, Mackenzie has been a strong member of the varsity Field Hockey (Grade 9-12) and Lacrosse (Grade 9-12) teams. She also participated in the Maineiax Elite Team (Grade 9-12). During her junior year, she received the Clarkson Award for her outstanding leadership qualities and positive contributions to the school and community. If she is not busy organizing a school opportunity or honing her skills on the athletic field, Mackenzie also maintains a job at the local Shaker Pond Ice Cream.

Congratulations to Mackenzie, and her family, for this wonderful achievement that honors her hard work, dedication, and achievement throughout her educational career.

Regards,

Ty Thurlow, Principal
