Body.

The Aenderese Republic has, for a long time never had a long term media outlet.
Therefore, I propose an act to:

- a. Set up a web media outlet from the Aenderian government to output new stuff from Aenderia to the micronational community
- b. Start a newspaper
- c. Restart the Voice of Aenderia
- d. Consider making more aenderia oriented videos on the Youtube channel
 - i. The Youtube channel will be transferred to Jayden Lycon's personal channel when his term ends since most of the videos are personal videos
