Overview

Color Viewfinder - Palette (“we,” “our,” or “us”) is a simple color capture and palette creation tool. We respect your privacy and are committed to being transparent about how we handle your information.

What We Collect

We do **not** collect, store, or transmit any personal information or data.

- No accounts
- No analytics or tracking
- No advertising SDKs
- No data sent to our servers (the app does not require internet to work)

How the App Works (On-Device Only)

The app uses your device’s **camera** to capture colors and generate palettes. All color detection and processing happen **locally on your device**. No images or color data are uploaded or transmitted anywhere.

Data Storage

The app may store **local preferences** such as your last used color palette or interface settings. These settings are stored only on your device and are not linked to your identity.

Permissions

Camera: Used solely to capture colors in real time.

The app does not access contacts, photos, microphone, location, or any other personal data.

Third Parties

We do not share any data with third parties. No external SDKs or analytics frameworks are included.

Children’s Privacy

We do not knowingly collect personal data from anyone, including children under 13 (or the equivalent age in your jurisdiction).

Your Rights

Since we do not collect or process personal data, there is nothing to access, correct, or delete. If you have questions about privacy rights in your region, you may contact us.

Security

All data remains on your device and is protected by your operating system's security measures (e.g., Face ID, Touch ID, passcode).

Changes to This Policy

If we make any significant updates, we will revise the "Last Updated" date above. Continuing to use the app means you accept the updated terms.
