Rules for adding students:

1. No more than 4 students per square until all squares are full.
 2. No more than 1 student per classroom per square.
 3. Split your students evenly between the 11 trends and the 6 senses of the conceptual age! This is important.
 4. Teachers add your OWN students.
 5. **Student first names and last initials ONLY and school code after it as well. e.g. JohnL_BISS**
 6. Color code your students with your code from the document.
 7. First come first serve - only project organizers may move students - please check the grid as project organizers may have to move some students to keep balance. We do our best to give first choice but do not guarantee it!
