From the offset, the fundamental mission of the Class of 2021 Council was to create community among Sophomores. Among the apparent absurdity of the world around us and the academic rigours of the campus in front of us, it's more important than ever that Sophomores take every opportunity given to us to take a breath and lift each other up for being the incredible people we all know we are. That's why we are so excited to announce our 2018 Soph Show! Think of it like an exhibition of our class's unique array of talents and abilities - some may even refer to it as a talent show! In Hodson 101 on December 1st, Sophomores either in performing arts groups or not will be invited to show their skills and compete for several prizes. determined by our wonderful guest judges made of the most popular faculty and staff. We've always known that there's something special about the Class of 2021, and we couldn't be more excited to put that all in one place. We hope you join us for Soph Show 2018!
