AOTF Enquiry Questionnaire :

> General parameters (provide this information for all AO products) :

Applications? Please give as much detail as possible!
(eg. Spectroscopy, biomedical imaging etc)

Ans :

Laser or light source type?

Ans :

Wavelength or wavelength range (nm)?

Ans :

Polarisation state & direction?

Ans :

Beam diameter (mm)?

Ans :

Optical power (peak optical power density if application is pulsed (W/cm²))?

Ans :

SPECIFIC PARAMETERS :

> Specific parameters - Acousto-Optic Tunable Filter (AOTF) :

Tuning range (bandwidth) (nm)?

Ans :

Resolution?

Ans:

> Others :

Requested quantity?

Ans :

Do you need a RF driver ? Module or subsystem level platform?

Ans :
