Introduction

A brief introduction highlighting the objective, contributions of your work, and the rationale behind the design. Please avoid the explanation of NIRS's benefits on non-destructive, quick measurement and less chemical and labour. The body text should be in Microsoft Times New Roman (or equivalent), 12 font size with 1.5 line spacing.

Materials and Methods

The materials and method of measurement should be explained in brief.

Results and discussions

Please present your results that may be supplemented with Figure(s) and/or Table(s).

Conclusions

Please refrain from references in the abstract. The abstract can have more than 1 paragraph; however, the brief and easy to understand abstract will pay a good contribution to the selection of oral presentation. Please note that the abstracts should not be more than 2 Pages including figures and tables.

Keywords: milk, food safety, penetration depth, water

Please avoid the words "NIRS", "Near Infrared", "Non-destructive".

The number of keywords should not exceed ten.
