

## Rei's Committee Report

### Accreditation Committee:

**Accommodations for functioning:** None

**Working with other Committees:**

Accreditation Committee is considering working with other committees to disperse work.

**Summary:**

The Committee is currently having a quorum call to clean out their listserv and planning for meetings in the new year.

### Outreach Committee:

**Accommodations for Functioning:** None

**Working with other Committees:**

Outreach has recently introduced collaborations with other Committees including Accreditation and Fundraising which are being considered.

**Summary:**

Within it's committee, Outreach has created subcommittees to assist with forming states, Accreditation is aware and will adapt for moving forward in the new year.

### Fundraising Committee:

**Accommodations for Functioning:**

Discussions over the listserv have included de-duping, and a list of tasks. There has been discussions of calling and reaching out to financial sustainers and supporters, and perhaps there is software that could be useful for that. There may also be software that is useful for executing our strategic plan for fundraising such as textbank software, phonebank software, list updating software, and/or a program for volunteers or interns that could help organize our membership database for fundraising to have fewer issues and a less overwhelming list of information that needs to be simplified.

**Working with other Committees:** With the Fundraising committee currently meeting at 9pm, it is too late to make calls or to do outreach to membership for support which has introduced making calls at other days and times that are convenient for members. It has been suggested that Fundraising Committee delegate calling to Outreach for fundraising and membership engagement.

**Summary:** Fundraising committee requires additional support and discussion has been had at meetings regarding reaching out to sustainers, however at this time a list has not been presented to call on as of October 9, 2021. Though the membership list has been discussed over the listserv, there has been no direct action taken to call sustainers or donors to collect donations.
