.Omar: yes, I am

?Ali: do you do

.Omar: I take books to the houses of people

.Ali: That's great

Reading

5-Read the following passage then answer the questions below:

(6 marks)

Fish and many other kinds of life are disappearing from the oceans fast. There are sad changes everywhere. Near the coast, they are often caused by pollution. Further out, the cause is often over - fishing. Fishing boats with huge nets catch and kill everything. We risk a terrible man-made disaster - the death of oceans. Two centuries ago, whales were already being caught for their oil and meat. They were not protected anywhere until the world's action to save them in 1985. This means that whale populations are slowly rising again. So, we really need another world's action to save fish from disappearing. Perhaps the only way to save the oceans is the one that our ancestors discovered long ago: farming. People say the fish do not taste as good as wild fish. However, that is still much better than losing all the fish in the world.

A) Answer the following questions

1) When was the action of protecting whales taken?

.....

2) What did our ancestors discover long ago?

.....

() .Put true or false: a) Fishing boats with huge nets catch and kills everything

() .b) Sad changes are not caused by pollution

:Find from the passage

..... :The meaning of: very large: types

.....The opposite of: appear X worse X

..... :The underlined pronoun they refers to
